# MADRID GIVEN ULTIMATUM IRUN ATTACK SHATTERED Insurgents Fail To Penetrate Defences MOWED DOWN BY FIRE OF LOYAL TROOPS

Lisbon, Aug. 28.  
Insurgent planes dropped an ultimatum, in leaflets, into Madrid to-day.  
The message read: "If you do not compel the Marxist leaders to surrender immediately and unconditionally, we regret the great damage we shall be obliged to do the population and the beautiful city."—*Reuter*.  
**ATTACK CRUMBLES**  
Hendaye, Aug. 28.  
The battle for Irun continued to-day, but was largely confined to artillery and machine-gun duels until the evening, when a terrific struggle started around the Church of San Marcial, situated on a crest commanding the city of Irun, and defended by Government regular troops with seven batteries of artillery.  
Insurgent planes opened the attack, blowing up the road, which led to the church. Thereafter, the insurgents advanced, and fierce hand-to-hand fighting followed, both sides using hand grenades and dynamite bombs with devastating effect.  
Moroccan troops and Spanish Foreign Legionnaires stormed the crest of the hill from the south, but the Government troops' heavy machine-gun fire repelled or wiped out successive waves of attackers.

In the evening the insurgents abandoned the assault on San Marcial and are now bombarding Irun itself.  
An insurgent shell fell into a garden of the village of Hendaye, but failed to explode. It is understood the French Government will demand the establishment of a neutral zone to ensure the safety of French territory.—*Reuter*.  
**"Anti-Catholic Barbarism"**  
Vienna, Aug. 28.  
Cardinal Innitzer, Archbishop of Austria, in a pastoral letter, to-day urged the churches throughout the country to hold exaltation services in connection with the "anti-Catholic barbarism" in Spain.  
The Archbishop said Russia was responsible for the Spanish situation, referring to the Catholic "victims of a hellish hatred."  
He urged the priests to emphasize "the terrible plight of our brethren in Spain, the great danger from atheism, and acts of sacrilege."—*United Press*.  
**Ex-King's Movements**  
Vienna, Aug. 28.  
In the neighbourhood of Dellach, where ex-King Alfonso of Spain is staying for golf and out-door sports, his hotel is agog over the report that the exiled monarch is prepared to leave for an unknown destination.  
A strong contingent of detectives guard the hotel day and night.  
Ex-King Alfonso's secretary declines to arrange interviews with the press or even to answer the telephone.—*Reuter*.  
**Malaga Bombed**  
Gibraltar, Aug. 28.  
The rebel radio station at Tetuan says insurgent planes have bombed the Government air base at Malaga, but the report is otherwise not confirmed.—*United Press*.

## FRANCO-POLISH PARLEY ARMY CHIEFS TO CONFER POSSIBILITY OF PACT

Warsaw, Aug. 28.  
Inspector-General Smigley of the Polish Army has left for France, where he will be the guest of General Gamelin, Chief of the General Staff, and Vice-President of the Council of War, who recently visited Poland and had a number of military talks with Polish officers.  
Considerable importance is attached to General Smigley's visit, which may result in the clarification of the Franco-Polish relations which recently appeared to be becoming strained. There is an added interest in the visit in view of the recent conscription developments in Germany and Russia.  
There is a possibility that the talks may result in France opening credits for the modernisation of the Polish army, in return for which France would expect Poland to renew her adherence to the Franco-Polish treaty and make a closer agreement with her non-German neighbours.—*Reuter Special*.

## AMERICAN EMBASSY REMOVED IN QUARTERS AT NANKING NEW BRITISH OFFICES

Shanghai, Aug. 28.  
Affording visual demonstration of its recognition that China's capital is no longer at Peking, but at Nanking, where the National Government was founded nine years ago, the American Embassy staff to-day occupied new and larger quarters, which is actually the first indication that America's diplomatic representatives are moving from Peking.  
Nine years ago, the United States maintained only a Consulate at Nanking, which was housed in one small building, which has been used for the Embassy staff since the mutual elevation of the diplomatic missions of China and the United States from Legations to Embassies.  
The new premises consist of five buildings. The Ambassador, Mr. Nelson Johnson, now residing at Peking will move to Nanking in October, accompanied by other members of the Embassy staff now in the northern city.  
The American Embassy will thus join the German, Italian, Soviet and Japanese Embassies, which maintain either a full or part establishment at Nanking. The British Embassy buildings are now under construction, and when completed the British staff will also move from Peking.—*United Press*.  
**URGENT CUT IN  
CABLE TOLLS**  
Shanghai, Aug. 28.  
The Sino-American Trade Association, the Shanghai Chamber of Commerce and the Shanghai branch of the International Chamber of Commerce have jointly petitioned the Ministry of Communications for a reduction in the telegraphic tolls between China and the United States.  
Comparing the rates charged by China with those of Japan and the Philippines, the petition asks for a reduction of fifty per cent. for a trial period of six months.  
It is pointed out in the petition that the high charges impede the expansion of Sino-American trade, and also constitute an obstacle in the promotion of international publicity.—*United Press*.

## REBEL SHORE BATTERIES SHELL SUBMARINE

First picture of shelling of the Spanish Government submarine by rebel field-gun batteries in and around Algeiras. Rebels were trying to land reinforcements by air, from Morocco; submarines had been concentrating to prevent them. The photographer, P. H. F. Torrey, who took this remarkable picture from deck of passing steamer just off Giteaux Bay, says: "The shells dropped nearer us than the submarine."

## AMNESTY PROPOSED IN CHINA MME. SUN YAT-SEN BEHIND SCHEME CONSTITUTION REVISION

Nanking, Aug. 29.  
It is learned that the recent proposal for a general amnesty for political prisoners in China is receiving the serious attention of the Judicial and Legislative authorities.  
The Central China Daily News asserts that the present trip of Madame Sun Yat-sen, widow of the first President of the Chinese Republic, who is on her way to Kuling, is concerned with this question. It is said that Madame Sun suggested that the amnesty should be formally announced soon so the liberated prisoners might participate in the election of delegates to the National People's Congress, which convenes on November 12. This body is to adopt China's revised constitution and inaugurate a representative and democratic form of Government, it is understood.  
The Minister of Justice, Dr. Wong Yuen-pin, says there are about 2,100 political prisoners confined in ordinary jails and about 1,000 in the provincial reformatories.  
The Central China Daily News intimates that political amnesty will be granted in the future, while those under the separate category, "political criminal," or "reactionary," will be given commutations of their sentences on promulgation of the constitution.—*United Press*.  
**GUARDING SECRETS**

## SPEEDING ACROSS ATLANTIC QUEEN MARY AHEAD OF RECORD INCREASING HER PACE

London, Aug. 28.  
The Queen Mary, which has already broken the Atlantic record for an east to west voyage by four hours and a half, is continuing her bid for the Blue Riband to-day, racing from west to east, towards Cherbourg.  
For the twenty-four hours ending at noon to-day she had steamed 703 miles, at an average speed of 30.57 knots.  
Up to noon her total run was 1,285 miles, which gives her an average speed of 30.37 knots.  
The French liner Normandie's average speed for the whole of the west to east crossing was 30.31 knots, so that if the Queen Mary maintains her present rate of speed she should win the Blue Riband outright, with several hours to spare.—*Reuter Bulletin Service*.

## NEW MINISTER TO EGYPT

Berlin, Aug. 28.  
The new German Minister to Egypt, who replaces Herr von Stohrer, recently appointed Ambassador to Madrid, is Freiherr von Wachenfeld, former Consul-General in India.  
He was Consul in South Africa before the war and is an author of note, having written numbers of works on colonial questions. He is also an expert on British Empire affairs.—*Reuter*.

## FAILURE OF TREATY BLAMED ON U.S.

Yosemite, Aug. 28.  
At the round table conference of the Institute of Pacific Relations to-day, France blamed the United States for the failure of the Nine Power Pact, due to the refusal to accept the principle of enforcement through sanctions at the Washington Conference.  
The French insisted the pact was still valid, however, and constitutes a regional agreement to which force should be given by means of the addition of a sanctions clause, and the subsequent incorporation of a world-wide pact, similar to the League of Nations.  
The Americans emphasised that the United States was already being drawn to recognition of the principle of consultation to prevent war, due to her participation in the 1935 Argentine peace pact.  
The Japanese indicated a modification of their position relative to the Nine Power Pact. They admitted that the world reached a state where treaties were not valid, collective security would be impossible. They insisted they had not repudiated treaties, but that revision of the Nine Power Pact was necessary.—*United Press*.

## POLITICAL MOTIVE IN SLAYINGS CHINESE PRESS CONTENTION APOLOGY TO JAPANESE

Shanghai, Aug. 28.  
The Chinese press to-day contends that the shooting of two Japanese newspapermen at Chengtu, during the riots of last week, was engineered by anti-Government elements with the purpose of increasing the Central authorities' difficulties in handling foreign relations. Bandits cannot be blamed for the outrage, it is claimed, for they have been eradicated in Szechuan.  
The Central China Daily News points out that those responsible for the public safety in Chengtu were not to blame for the murders, drawing attention to the police casualties, which included one dead, and which, in the number of wounded, were far more numerous than the Japanese.  
The press is unanimous in expressing its deepest regret and the hope that the incident will not lead to friction. It demands due punishment if it is ascertained that the local authorities were negligent in the maintenance of law and order.—*United Press*.

## KING TO VISIT TURKEY LANDING ON OLD BATTLEFIELDS

Istanbul, Aug. 28.  
The yacht Nahlin, under charter to King Edward for a Mediterranean cruise, is expected to arrive at Chanak next Thursday.  
It is understood that King Edward will visit the War Cemeteries on the battlefields of Gallipoli.  
He is due to arrive in Istanbul Friday.  
According to the Turkish newspapers, the King will be the guest of Kemal Ataturk, but there will be no ceremonies, as the visit is informal. It is believed the King will attend a regatta on the Bosphorus and a ball in his honour on September 6.—*Reuter Bulletin Service*.

## Friendly To Britain EGYPT PLEASSED BY NEW TREATY

Cairo, Aug. 28.  
The outstanding result, thus far, of the signing of the Anglo-Egyptian Treaty has been the unprecedented warmth of feeling towards Great Britain in Egyptian circles.  
There has been as yet no sign of criticism of the treaty in the vernacular press, which reviews the situation soberly, exhorting Egyptians to unite and undertake their new responsibilities with a determination to benefit the country.—*Reuter*.

## DO YOU EASILY Sun Tan?

• For some it's easy;  
for others it's torture  
... This article tells  
why, what you'd better  
do about it ... First—

### For those who do ...

**Y**OU fall into this category if you have a strong, oily skin, medium brown or dark hair, small features, and excess vitality. Your skin reacts immediately to the sun. It does not blister or burn, and the process of sun-tanning definitely improves its texture, making it smooth and fine.

You need not be afraid of sunbathing; you will feel invigorated all the time.

Because you have larger pores and more tendency to shine than fine-skinned people you may imagine that your skin is tougher altogether, but actually it is very sensitive. On examining your face carefully you will find that the skin is elastic and very soft in texture.

#### Fortunate

**T**HE slightest impurity in the blood will show itself immediately on the surface of your face. This is a good thing for you, although you probably deprecate it.

Many people of your type show slight internal disorders—such as biliousness, acidity or over-eating—within six hours of the trouble by small pimples and excess oily secretions on the skin. This gives you the opportunity to act about curing the trouble at once.

Your face will not line or wrinkle until quite late in life, even if you expose it constantly to sun and wind.

On no account use very strong astringents to dry it during the summer months, and never cover it with creams.

#### Energy

**Y**OUR troubles are usually connected with excess vitality. Given, as a rule, to over-indulgence in both eating and exercising, any illness you may have are invariably of the digestive and intestinal systems—rarely of the nervous or respiratory ones.

You will always tend to put on flesh. You rarely see a really thin person beautifully sun-tanned—invariably they are well covered as well as deep brown.

You should be able to get your first tan at the beginning of the summer, for you react immediately to any sun. After that no amount of exposure will hurt you as long as you are careful about actual changes in temperature. Many people are apt to confuse sun-tanning with burning of the skin. Excessive red rays from the sun merely burn the surface of the skin; it is the long and short violet rays that tan properly. For this reason diffused sunlight is more valuable than direct hot rays.

#### Warning

**W**ATCH your diet when you begin your sun-tanning. Give up fats as much as possible and take raw vegetable salads. Cut down meats and oily fish—otherwise your first sunbath will only bring out pink blotches from excessive internal heat.

Remember that your skin wants to keep at an even temperature and be continually throwing out waste matter—it is one of the most active parts of your make-up. Exercise on every possible occasion out of doors, give it plenty of cold douches and finger massages and help it to wake up.

### For those who don't ...

**I**F you are the true fair-skinned type, all the care, creams, oils, and time you may spend on your skin in the summer months will never be rewarded by a deep, even sun-tan.

A very fine pale surface, closely knit pores, and tendency to soft downy hairs are the immediate indicators that you are not the sun-tanning sort.

Your skin is lovely in early youth and is one of your greatest charms, but violent exposure to strong sunlight is not for you. In no circumstances should you expose a fine dry skin to a really hot sun. It will ruin the skin, injure the nerve-ends and generally upset your blood.

Sunbathe in the very early summer and in the autumn. But in great heat wear a shady hat or scarf, and if you must go out in the sun protect yourself with oil or starch paste—whichever suits you best.

#### You live at high Pressure

**I**N physical type you are Nordic and will have long limbs and a short, slender body; any health troubles will come either from your nerves or from your respiratory system. Always tending to keep very slender (even in middle and old age), you live at a high nervous tension. This, coupled with your delicate coloring and easily injured skin, wash in lukewarm water always and be sparing with soaps.

Your type of fine-skinned, slender people are the pioneers. You like being alone, and you like using your brain. The stronger your features, the more noticeable will be your ambition in all the nervous vitality of the northern European nations. Adventures, new experiences, travel—these you will seek all your life.

#### Watch what

##### you Eat

**Y**OU must watch your diet carefully, as you are unable to cope with bulky food.

Meat and fish will suit you—an all-vegetarian diet will not. Minerals you must have, as these will help you in sunbathing, but you must get your minerals in concentrated form.

Raw milk, either as a beverage or in the form of junket, is essential to your type. Raw salads are best taken very finely minced or chopped and only in small quantities. Raisins are excellent: try them as a sweet with chopped almonds and fruit juice.

You fine-skinned people are liable to suffer from small boils—not to be confused with the heat-spot sun-tanners may get.

The remedy is a diet that builds you up. See that you get a daily allowance of vitamin B—either in special foods or by means of brewer's yeast. It is a good idea to take a pennyworth of this a day during the summer months.

#### Feed it Well

**Y**OUR skin itself needs daily feeding. It will use all the feeding cream you have time to give it, and will need weekly massaging to prevent wrinkling.

## MORE GOOD DISHES with cider

#### Rabbit a la

##### Normande

is a popular dish in Normandy. Divide the rabbit into joints and brown these in a little butter with 1 or 2 tablespoons of chopped onion. Then accustom with salt and pepper, cover with cider, add a bouquet of mixed herbs; 1 or 2 cloves, cover and simmer till the rabbit is tender. When three-quarters cooked, add a few blanched turnips, and continue cooking. To serve, put on a hot dish, pour the sauce over the rabbit and turnips and garnish with small cubes of bread fried in butter.

#### A cheese and cider savoury

is reminiscent of a Welsh rabbit, but has quite a distinctive flavour. To every 1/2 lb. of Cheshire or Cheddar cheese allow three tablespoons of cider, one teaspoon of made mustard, a little salt and Cayenne pepper. Dice the cheese, put in a saucepan with the cider and seasoning, and stir over a slow fire till the consistency of thick cream. It should be quite free from lumps. Pour at once on hot buttered toast and serve very hot.

#### Kidneys sautes with cider

are quite as good as when done with white wine. Remove fat and skin from the kidneys and slice them thinly. Toss them in hot butter, seasoning with salt and pepper, add one or two bay leaves and smother with half a tablespoon of flour. Stir and cook for three or four minutes, and moisten with five or six tablespoons of cider. Cook for another five minutes and serve at once.

## KING MAY GIVE UP RANCH

The King is considering a plan to present his 6,000-acre "E.P." ranch near Calgary, Alberta, to the Fairbridge Farm School on Vancouver Island, where immigrant children are given agricultural training.

For some years it has been said that the ranch was not showing a profit, and it was rumoured early this year that the King might give it to one of his brothers.

The Fairbridge Farm School was begun early last year as an extension of the Fairbridge scheme, which has been in existence in Western Australia for 20 years.

A thousand acres of land were acquired in the valley of the Cowichan River to accommodate 400 children chosen by the London Committee of the Child Immigration Society.

The ranch—known throughout Canada by its initials, which are carved over the fireplace in the main room of the homestead—was the private property of the King when he was Prince of Wales.

### OIL POOL DISCOVERED

It is a small one as Canadian ranches go, lying 65 miles south-west of Calgary in the foothills of the Rockies. It is on high-grade land and in one of the richest grain-growing and stock-raising regions of the West.

Last month an immense crude-oil pool was found by drillers in the Turner Valley, extending under the King's ranch.

As owner of the ranch the King holds a 99-year lease for all oil and mineral rights found by virtue of an Order-in-Council passed by the Provincial Government in 1930.

Four days ago a burst of gas, released from a 3,885-ft. drilling at Pelicito, oil well, revealed the likely presence of a rich area only 400 yards from the ranch boundaries.

The King is believed to hold the view that the ranch should remain purely a cattle-ranch and no boring has been begun.

### YOUNG AMERICA'S AVERAGE CHANCES

New York, Aug. 20.

The young American about to earn his living has four chances in five of landing a job, an average chance of attaining an income of £400 a year during his peak years, and a little better than one chance in ten of making £1,000 a year.

This calculation is made by Dr. Louis J. Dublin, an actuary of a New York life insurance company.

Calculating from actuarial tables, he believes that nine out of ten of the young men will marry at an average age of 26, with the average age of their wives 22.

They will have four chances in five of avoiding divorce. On the average, each couple will have three children.

## BOY FRIEND WATCHES AXE CRIME

Bayonne, N.J., Aug. 20.

AN extraordinary confession, said to have been made by a girl of seventeen charged with murdering her mother while her boy friend held the mother's arms, was put in by the police at the Bayonne Court.

The girl, Gladys MacKnight, and her eighteen-year-old boy friend, Donald Wightman, were arraigned on a charge of first degree murder of the girl's mother, Mrs. Helen MacKnight.

Wightman earns his living by broadcasting hymns from a small radio station.

According to the police, the mother found the couple embracing, but Gladys, a slender attractive blonde, in her alleged confession, said the quarrel began over who was to get the dinner.

"Mother picked up a bread knife as Donald walked into the room," Gladys told the police. "She had raised her hand, but Donald grabbed her arm."

"While Donald held her I hit her on the head several times."

In first degree murder, if the girl and boy are found guilty, there is only one sentence—death.

Gladys is alleged to have told the police: "After mother fell on the floor, Donald said, 'Hit her again,' and I did."

The couple then got food from the icebox, locked the door and told neighbours who had heard screams that the mother had cut her finger.

Then they started out in a car, intending to flee to Canada, but after a kiss decided to surrender.

The father Mr. Edgar MacKnight, found his wife's body on the floor in a pool of blood. In her hand she was clutching a knife.

For five hours Gladys denied that she had struck her mother but finally the police say, she broke down and confessed.

## GOOSE ASKS FOR HELP

London, Aug. 20.

Men in a Scots herring drifter lying at her nets off Shetland saw a solan goose (a web-footed sea fowl) swimming towards them.

When it came alongside the men lifted the bird on board and found a large fish-hook through its tongue.

They cut away the barb and removed the hook. The goose swam round the drifter for a long time before making off seaward.

The fishermen were convinced that the bird came to them for help.

One o'clock—two—three! You can't sleep, your nerves are on edge. Lack of Vitamin B in the diet is frequently the cause of nervous irritability. Follow the example of thousands and drink Vitavose, Chocolate-flavoured, regularly. This delicious food-drink is rich in Vitamins, mineral salts and iron. Two teaspoonfuls of Vitavose in a hot cup of milk, taken before retiring, will induce sound, strength-building sleep. It builds appetite, tones the nerves, creates new energy. Buy a tin of Vitavose to-day.

## END PERSPIRATION DAMAGE

Stop worrying about perspiration—its odour and damage to clothes. Use Odo-ro-do, regularly and see what a difference it makes. Daily baths or temporary deodorants cannot give the complete freedom from perspiration that Odo-ro-do does. Odo-ro-do was invented by a doctor. It stops perspiration in the small area of the under-arm and this, authorities agree, is a healthful and sanitary practice.

Odo-ro-do is made in two strengths—"Regular", for use twice a week; and "Instant", for daily use, or for people with more sensitive skin.

**ODO-RO-DO**

"What time did I come in, Hawkins?"

"I really couldn't say to the minute, Sir. After the milk, if I may say so, Sir. But definitely before the first post."

"I stuck to Gimbels faithfully last night and I feel as though I'd gone to bed at 10 o'clock on a glass of milk."

"Well they do say, Sir, that lime juice — er — as it were — neutralises the — er — what would have been a nasty hangover, Sir —"

"I say, that's a discovery. Order a stock, but get the best."

"Very good, Sir. Two cases of Rose's Lime Juice. I will order them at once."

## CINEMA NOTES

It's all done with thermometers. When motion picture fans see John Boles and Wallace Beery wading through alligator infested swamps in "A Message to Garcia" the 20th Century-Fox picture which is now at the King's and Alhambra Theatres, they are likely to shudder with fear for their favourite, or just dismiss the incident as a cleverly contrived Hollywood illusion. But they need do neither. Although those alligators were very much alive, neither of the screen players were in danger throughout the shooting of the episode. Careful handling of the water temperatures in the scenes was the secret that enabled the actors to work with the big 200-pound saurians. Brought from their winter hibernation in which they become completely dormant once each week, Barbara Stanwyck is the leading feminine player in this roistering, glamorous picture of one of the most audacious adventures in history. George Marshall directed and Darryl F. Zanuck personally supervised the production.

"Petticoat Fever"

If not the star, the invisible light-

As the fiery senorita who shares romance and uproarious adventure with the man she loves, Barbara Stanwyck is starred in "A Message to Garcia," now showing at the King's and Alhambra Theatres.

ning of wireless telegraphy is at least a featured player in the new Metro-Goldwyn-Mayer production, "Petticoat Fever," coming on Sunday to the Majestic Theatre. With all the action taking place in Labrador, and two-thirds of it in the narrow confines of a remote wireless station, radio itself provides the thread which weaves drama about the ice-bound locale. Robert Montgomery is the wireless operator who is first seen playing chess by radio with an operator aboard a ship at sea—the same ship which is returning his unwanted fiancée to the ice-bound coast. Next, by means of wireless two fliers, Myrna Loy and Reginald Owen, find their faltering way to his lonely tower. On this basis, made possible by radio, the comedy-drama begins to unfold—Montgomery holding his attractive guest prisoner, first by physical, then by emotional force until the arrival of his own fiancée upsets his plans and changes the course of the drama toward an abrupt and smashing finish. Thus it can honestly be said that if it were not for her invention of wireless, the play could never have been written. Authorized by Marx Reed, it was an immediate success on the New York stage last season, then toured the country in stock before being purchased by M-G-M for the screen.

### "Forgotten Faces"

"Forgotten Faces," a story of tragedy which follows a marriage that crashes on the rocks, opened yesterday at the Star Theatre. Herbert Marshall stars in the film and the excellent supporting cast features Gertrude Michael, James Burke, Jane Rhodes, and Robert Cummings. Directed by E. A. Dupont, from an original story by Richard Washburn Child, "Forgotten Faces" deals with a dapper gambling house operator whose favourite flower is the heliotrope, because he believes that its influence is lucky for him. The film has one of the most dramatic climaxes seen in pictures in many months.

# 3 Factors of Importance

in planning your advertising campaign.

- **COVERAGE:** For many years the "South China Morning Post" has been regarded as the leading newspaper in Hongkong and South China. It has by far the largest circulation, penetrating to the Outports and inland centres. "The Hongkong Telegraph" enjoys a similar pre-eminence as the leading afternoon newspaper.
- **IN THE HOME:** The newspaper that produces profitable results to the advertiser is the newspaper that is read and re-read by the family. The S. C. M. Post reaches most families with morning tea. Similarly, "The Hongkong Telegraph" is the afternoon favourite with the majority.
- **LOCAL PRESTIGE:** The judgment of "the man on the spot" in respect to media selection is based on sound knowledge and can be followed with confidence. Year in and year out leading local firms expend the greater part of their allocations in the "South China Morning Post" and "The Hongkong Telegraph."

## CHRISTIAN SCIENCE LESSON SERMON

First Church of Christ, Scientist, Hongkong  
SUBJECT: "CHRIST JESUS"

The subject of the Lesson Sermon in all Christian Science churches to-morrow August 30, will be "Christ Jesus."

The Golden Text will be: "God sent not his Son into the world to condemn the world; but that the world through him might be saved." (John 3: 17.)

Amongst others the following citations from the Bible will be read: "And we have seen and do testify that the Father sent the Son to be the Saviour of the World. And Jesus called a little child unto him, and set him in the midst of them. And said, Verily I say unto you; Except ye be converted, and become as little children, ye shall not enter into the kingdom of heaven. Take heed that ye despise not one of these little ones; for I say unto you, That in heaven their angels do always behold the face of my Father which is in heaven. For the Son of man is come to save that which was lost. How think ye? If a man have an hundred sheep, and one of them be gone astray, doth he not leave the ninety and nine which go not astray, to go and seek that which is gone astray? And if so be that he find it, verily I say unto you, he rejoiceth more of that sheep, than of the ninety and nine which went not astray. Even so it is not the will of your Father which is in heaven, that these little ones should perish." (Matt. 18: 1-14.)

The Lesson Sermon will also include the following passages from the Christian Science Textbook "Science and Health with Key to the Scriptures" by Mary Baker Eddy.

"The history of Jesus shews him to have been more spiritual than all other earthly personalities. Explaining and demonstrating the way of divine Science, he became the way of salvation to all who accepted his word. From him mortals may learn how to escape from evil. His consummate example was for the salvation of us all, but only through doing the works which he did and taught others to do. His purpose in healing was not alone to restore health, but to demonstrate his divine Principle. He was inspired by God, by Truth and Love, in all that he said and did. Now that the gospel of healing is again preached by the wayside, does not pulpits sometimes seem ill? Present that curative mission, which presents the Saviour in a clearer light than mere words can possibly do, cannot be left out of Christianity, although it is again ruled out of the synagogue. If we are sensibly with the body and regard omnipotence as a corporeal, material person, whose ear we would only, we are not "without, from the body" and "present with the Lord" in the demonstration of Spirit. We cannot serve two masters, to be "present with the Lord" is to have, not mere emotional ecstasy or faith, but the actual demonstration and understanding of Life as revealed in Christian Science. (Pages 318 31, 35, 14).

### OGPU ARRESTING SUSPECTS

Moscow, Aug. 28.

The press is daily reporting numerous resolutions passed by party committees in all parts of the country expelling prominent executive officers from party posts and demanding the further investigation of alleged criminal pollution.

"The 'purge' is being carried out by ordinary party officials and the OGPU only arrests suspects."

It is officially denied that the authority of the OGPU has been widened. —Reuter Special.

### HARBOUR PIPE LINE REPAIRS

In connection with repairs of the cross-harbour pipe line, it is notified that operations involving the use of divers are being carried out on a line from the sea wall opposite the south end of Nathan Road, Kowloon, to the north end of Queen's Pier. All craft used on this work will fly a large square red flag. All shipping must give a wide berth to the immediate area in which these craft are at work and must also proceed dead slow whilst in the vicinity.

Two cases of Typhoid were reported to the local Health authorities on Thursday.

A flannel dance for members and their friends is being held at the Kowloon Bowling Green Club this evening, commencing at 9 p.m.

Miss Maureen A. Moir passed the A. T. C. L. Rudiments at the recent Theory examination of the Trinity College of Music held in Hongkong.

His Excellency the Officer Administering the Government has appointed Mr. William Arthur Laling to be a Member of the Authorized Architects Consulting Committee, vice Mr. Joseph Frank Ardon, resigned.

Bankruptcy notifications state that a fourth and final dividend of \$6.16 per cent. has been declared in the case of Chung Kam-ching, merchant, and final dividend of \$22.70 per cent. in the case of the Ying Cheong Wo K1 firm, Chinese medicine dealers, of 80 Bonham Strand East.

## LOST SO MUCH FAT

### Friends Did Not Recognise Him

They knew him as a big man, weighing 17 stone 10 lbs. When they saw him again—a man of 12 stone 12 lbs.—they did not recognise him. 68 lbs. makes a lot of difference. Read how he rid himself of that excess poundage:—

"In one year I have succeeded in reducing myself from 17 stone 10 lbs. to 12 stone 12 lbs., largely by the regular use of Kruschen Salt. Friends who have not seen me in the intervening period fail to recognise me. I have dropped weight without any revolution of diet. I felt no weakness while losing weight; on the contrary, I became rapidly able to support physical strain such as would have been quite beyond me before taking Kruschen."

## Cunarder "552" To Be Ready in 1940

THE new Cunarder—No. 552, sister ship to the Queen Mary—will probably be launched in the Clyde during 1938, and delivery is to be made early in 1940.

This is the effect of an official statement made by Cunard-White Star, Ltd.

The new ship will be of approximately the same overall dimensions as the Queen Mary, it was stated.

It is not possible yet to say what the gross tonnage of No. 552 will be, but it is not likely to be much different from that of the Queen Mary (which is 80,774).

Mr. David Kirkwood, M.P., has received a remarkable letter from Sir Percy Bates, chairman of the Cunard-White Star, dated July 28, in which he says (in part):

"The Chancellor's statement in the House to-day [about the placing of the contract on the Clyde] must have given you great satisfaction, and it is because your share in the responsibility is perhaps larger than you might expect that I am writing you this letter."

"In this present world, the undertaking of an enterprise which is not only of huge size, but will take nearly four years to bring to fruition, is one of very grave responsibility."

"We believe in these ships, and believe they are necessary for the Atlantic of to-day and the future."

### BELIEF IN MEN

"But even though the Government is lending the money, we might well have not had the courage to borrow it. The last thing that gave us courage to go ahead was our belief in the men of the Clyde who had given us Number 534 after tremendous hardship and disappointment, and who will, we believe, help us through the years required for the second ship."

Sir Percy concludes with a tribute to Mr. Kirkwood's co-operation.

## Church Loss In Pit Disaster

London, Aug. 20.

As a result of the Gresford mine disaster in 1934, the Welsh Church lost revenue on royalties, says the report of the Commissioners of Church Temporalities in Wales.

Since the date of disestablishment an average of approximately £400 a year in rents and royalties has been received from the colliery under lease granted by the Ecclesiastical Commissioners.

After the disaster, it was agreed that the company should suspend payments for twelve months, or up to the date when coal-getting was resumed. The latter occurred early this year, and rent again became payable, as from January 1.

The total debt rent involved during the period of suspension was £401.

### THE "SACREDNESS" OF GOOD FORM

London, Aug. 5.

"Good form, as I understand it, is a way of making important things seem trivial and trivial things seem important."

This is how good form was described by Mr. W. B. Curry, headmaster of Dartington Hall, Devon.

Mr. Curry continued "It is concerned with manners and behaviour of a thing called 'not done.' In schools in which good form is thought important it is a much more serious matter to violate the canons of good form than to violate the Ten Commandments. Serious worship of good form among the young seems inevitable to lead to inflexibility of temper, because the essence of good form is that you don't question it."

## 150 LOCKED OUT OF CHURCH BY PRIESTS' ORDER

ONE HUNDRED AND FIFTY people were recently locked out of St. George's Roman Catholic Cathedral, Southwark, S.E., by order.

They were late for the 12 o'clock Mass, many of them habitual stragglers.

They had been warned. The 150 people, mostly women, waited on the steps of the cathedral. Later they were admitted.

### REPRIMAND

Four Sundays ago the administrator of the cathedral, Mr. Farrell, chided his congregation for being late for the various Masses. He made a special appeal to habitual stragglers.

"Some of you would be late for your own funerals. Being late for Mass is an insult to God," he said. There was an appreciable improvement the following Sunday. But when one of the parish priests began the celebration of the 12 o'clock Mass, wardens noticed the same old stragglers straggling in—so the doors were closed.

## Why Bette Davis Was Suspended

WARNER BROS.  
STATEMENT

A statement issued by J. L. Warner, vice president in charge of production for Warner Bros. Pictures, Inc., confirms the report that Bette Davis has been suspended by the studios for refusing to report for work in the picture "God's Country and the Woman", to which she has been assigned.

"Satan Met a Lady," in which Miss Davis appears opposite Warren William, will open at the Strand Theatre, New York, within a fortnight, following the engagement there of "Public Enemy's Wife."

Mr. Warner's statement was as follows:

"The dispute with Bette Davis is based upon something more than the question of salary. It involves the principle of whether or not Bette Davis or any other players can snap their fingers at their contractual obligations to the studio to which they are bound by contract."

"We have been more than fair with Bette Davis in our dealings. About a year ago we rewrote her contract, which had considerable time to run, and gave her a new long-term contract, giving her a considerable increase in salary. At that time she expressed herself as satisfied with the terms, and we proceeded to select outstanding stories for her and launched an extensive campaign in order to build her up."

"Now she is endeavouring to repudiate that contract and has refused to report for work unless her demands for an exorbitant salary and other impossible stipulations are met. There was no other alternative than to suspend her until such time as she is ready to live up to her contract."

"The facts in the case are as follows: Upon her return from vacation she agreed to appear in the motion picture 'God's Country and the Woman.' She was placed on salary, which she drew for several weeks before the picture actually went into production. We despatched, at tremendous expense, William Kelchley, the director, George Brent and the entire 'God's Country and the Woman' company to Longview, Wash., where the picture is to be made. It was only after we had gone to this great expense that Miss Davis notified us she would not appear in the picture unless her demands were met."

"Miss Davis's high-handed action has caused us added expense and delay, but we refuse to be forced into granting her unwarranted demands that are not in accordance with her contract."

"Warner Bros. have lived up to the terms of their contract with Bette Davis and we intend to make her live up to her obligation to the studio. It is high time that something was done to make people under contract to the studio realize that a contract is not a mere scrap of paper, to be thrown aside because they happen to make a good picture or two."

"We do not repudiate our contracts with our players, and we don't intend to let them repudiate their contracts with us."

## Look what film may cause

For clean, sound teeth...  
Remove **FILM** this way

The fate of your teeth may rest on what you do to remove film! Don't risk ineffective methods when film may lead to such serious consequences. And don't trust precious tooth enamel to any but a special film-removing dentifrice.

21 years ago a group of men discovered a scientific fact—that film should be removed if teeth are to be kept clean and sound, if gums are to remain healthy. A special formula was devised. Since then it has been constantly improved with one thought in mind: to remove film safely.

Today Pepsodent is known as the "special film-removing tooth paste." It is unexcelled in the way it removes the film that glues decay

germs to teeth. Millions know how it polishes teeth to natural brilliance. And it does these things safely. For Pepsodent contains no grit, nothing that might harm or injure tooth enamel.

For whiter, brighter teeth, sound and healthy teeth, use Pepsodent, the "special film-removing tooth paste."

## PAKHOI THREAT GUN-RUNNING NEAR KWANGCHOWAN ARMS FOR KWANGSI

Canton, Aug. 28. The Kwangsi invasion of southern Kwangtung has been confirmed by a telegram dated August 25 from the local Chamber of Commerce of the Hoihangshien (in southern Kwangtung) stating that a large column of Kwangsi forces entered Lienklung on Tuesday.

The telegram was addressed to Marshal Chiang Kai-shek, emphasizing that the situation is most threatening and asking the Government to send reinforcements.

A Government report says that 4,000 Kwangsi Troops are heading for Hopu, southern Kwangtung. The same information states that the Kwangsi troops have halted at White Sand Market—Wai Kiu Yat Po.

### ONLY BANDIT ATTACK

Canton, Aug. 28. It now appears that only bandits entered Lienklung and Hopu in southern Kwangtung. About 800 bandits appeared in that district and caused alarm.—Our Own Correspondent.

### APPROACHING PAKHOI

Canton, Aug. 28. Kwangsi vanguards are only twenty miles from Pakhoi. The information was sent yesterday to the Kwangtung Provincial Bank and the Provincial Treasury here by their agents in Pakhoi. The agents were sent there recently in connection with the silver conversion.

The same source says that a few thousand Kwangsi troops were hurriedly mobilized at Pakpak on the Kwangtung-Kwangsi border on Tuesday evening. This regiment under Commander Chow Cho-fong marched towards Pakhoi and, meeting no resistance, occupied Wuku, which is about twenty miles from Pakhoi. A smaller town near Wuku named Pak Sha Hui was also occupied.

Many business shops at Pak Sha Hui closed their doors when they saw the entry of the large Kwangsi force. The invaders made extensive purchases of foodstuffs.

When Marshal Chiang Kai-shek was informed of the Kwangsi invasion he wired to Generals Li Chung-jen and Pei Chung-hsi for an explanation of their action in view of the fact that peace negotiations are still proceeding and Chiang Kai-shek's representative, General Tang Shih-tseng, is still at Nanning.

### NEAR PAKHOI

Canton, Aug. 28. Another Kwangsi unit is approaching Pakhoi.

The objective of the Kwangsi forces is not clear, for although they are advancing on southern Kwangtung, they may also sail down the West River taking advantage of the flow of the stream.

The military authorities here are making suitable preparations to launch a counter-offensive.—Special.

### SEVERE CLASH REPORTED

Shanghai, Aug. 28. While peace negotiations are continuing the Kwangsi troops launched a fresh attack in South-west Kwangtung, capturing several towns after a severe clash with the Kwangtung militia.

The rebels are rapidly approaching Pakhoi on the Gulf of Tongking. The fall of this place would give the land-locked outlet to Kwangsi.—Reuter.

### STILL AVOIDING A CLASH

Canton, Aug. 28. "Even though Kwangsi Troops have advanced into the southern district of Kwangtung Nanking Troops on that front are still not allowed to take any action other than precautionary measures."

This statement was made by an official spokesman at Whampoa headquarters this morning. He added that up to the present no order for action has been given by the local Military Authority, but he declined to speak on what may happen in the immediate future.

In reply to a further enquiry the spokesman admitted that a telegram had been received from southern Kwangtung informing them of the invasion of Kwangsi Troops.—Wah Kiu Yat Po.

### GOVERNMENT TROOPS

Canton, Aug. 28. The Canton Division under Commander Li Hui-wen has been sent to Kuiping from Shikow to join the 77th Nanking Division under Commander Lo Lin.

Owing to the movement of these two divisions the Canton-Lockchung Railway has been crowded with military trains. The two divisions will reach their destinations by August 31.

The Nanking Division under General Li Yin-lip, brought here by China Merchant steamers from Amoy, has been despatched to Fatsien to-day.

The Canton Shipping Association has been requested to prepare twenty steam launches and 50 lowboats for transporting troops from Canton.—Wah Kiu Yat Po.

### GUNRUNNING AT MACHANG

Canton, Aug. 28. About 7,000 Kwangsi troops occupied Machang near Kwangchouwan and took possession of a consignment of arms and ammunition shipped from a foreign country, it was learned here to-day.

A mysterious train steamer hovered outside Kwangchouwan on August 26, waiting for the Kwangsi forces. The vessel steamed into Machang on August 26 upon the arrival of the Kwangsi troops, who commandeered small boats to unload the cargo of arms. There were no Kwangtung or Nanking troops in the vicinity of Kwangchouwan and the unloading was done without interference.—Special.

MODIFY THE  
CENSORSHIP

We revert to the question of the censorship of the Chinese press because it is abundantly clear that the system has been operated in a manner for which there can be no justification, covering, as it does, matters which do not bear the slightest relation to political issues. It will be recalled that during the Council debate on the subject, the Government spokesman took the stand that the censorship is necessary on the ground that control is required in respect of news and comment bearing on Chinese politics, in order that our good relations with China should not be jeopardised. Mr. Forrest went even further, when he declared that the present is "a time of public danger," which will continue "until a definitely stable Government exists in China." Incidentally, we dispute the inference that because the Kwangsi trouble has not yet been adjusted, a state of "public danger" exists in this Colony. We also quarrel with the implication that the present Chinese administration is not a stable Government. The existing regime in Nanking is, without question, the most stable that China has enjoyed for many years; its authority is more widespread and its writ runs throughout a greater part of the country than at any time during the life of the Republic. Suggestions to the contrary not only conflict with the facts, but, at a time when Anglo-Chinese friendship is being sedulously fostered, can hardly be considered as diplomatic. So much by way of parenthesis. Mr. Lo, in his speech on Wednesday, cited instances in which the censorship had been enforced on matter quite distinct from Chinese politics, even to the extent of suppression of an article commenting on the recent Council debate on the cost of Government in Hongkong. Even more striking were the examples of excited matter to which we gave publicity yesterday. What possible justification, for example, can be claimed for the suppression of a headline dealing with the censorship debate which read: "The Portuguese Representative, Mr. Braga, To Support Mr. Lo: The Chinese Representative, Mr. T. N. Chiu, to Oppose Motion for

"THE French," remarked "monied interest" to Charles Dickens a century ago, "are revolutionary and always at it."

After a hundred years, it still serves the purpose of "monied interest" to describe the French that way, when—as now—they are making history.

The truth is that without bloodshed and without anger they have undertaken and carried through a revolution. Without tampering for an instant with France's democratic constitution they have raised the material and moral standards of an entire class—that of the industrial workers.

Of France's forty-two million people, half work. All but a few of the rest are too old or too young. Then there are nearly a million who can find no work.

SINCE THE WAR, the Frenchman's way of living has become steadily worse. Slowly, but irresistibly, the town worker's meat ration has been halved, while the country and out-of-town worker has been reduced to practically no meat at all.

His clothing has had to last for longer and longer periods until often he has been reduced to rags, while boots have sometimes become an unattainable luxury.

His greatest privation, however, has been in the matter of lodging and heating. Hundreds of thousands of French town-workers live in tuberculosis-infested slum-dwellings that have been condemned by Health Inspectors for twenty years.

They live there, sometimes seven and eight in a room, with perhaps one small bed—either because they cannot afford anything better or because there is nothing better to be had.

Coal is usually beyond the range of the working man's purse, so when winter is upon him he goes to bed out of working hours and stays there.

In 1930 the workers in the metal and textile industries struck in the North, North-West and in the East. The next year was the beginning of a disastrous period.

A LONG CAMPAIGN for a reduction in the cost of living (it did not seem to occur to anyone to try to raise the means of purchasing) decided the Government to take action.

Abolition"? Or, to take an instance involving no controversial issue, but which merely concerned a local stabbing incident, on what possible grounds of public policy could objection be taken to publication of the names of the parties involved? Examples such as these give some idea of the omnibus powers of the censors, powers which go far beyond the grounds upon which the Government defends the necessity of the censorship. Our view, which we have already stated, is that, in these normal times, complete freedom should be restored to the Chinese press, for, as we showed in our comments on Thursday, there is ample provision in the existing laws to deal with any abuse of privilege. But if the Government still adheres to the view that some measure of control is needed, we suggest that such control should be confined exclusively to news and comment relating to Chinese politics, thereby freeing the vernacular newspapers from irksome interference in regard to matters which should be no concern whatever of officialdom.

Without Tears

discredited—set about attacking wages as the source of most evils and in particular as the cause of the high cost of living.

By cutting into the salaries of civil servants, they gave the agreed signal to private employers that the moment had come when they might slash wages without fear of interference. Promptly wages came crashing down.

The first of a series of cuts reduced the average wage of male workers in the Paris region by six per cent. At the same time, the women suffered terribly.

Paris clothing workers lost twenty per cent. of their wages in one operation, while down in Laval's country—the lace-workers were earning no more than a shilling a day on full time.

The women who wind silk off cocoons in the Ardèche, skilled work, were given one and six a day. Those who toiled on the land in the "Brandy Country" had one meal as well as one and fourpence a day.

The scabbers of the mercantile marine lost thirty per cent. of their wages—when they had any wages to cut.

These were the worst cases, but

the general run of workers fared little better. The weavers and the unskilled labourers suffered cruelly and the unrest of the preceding year redoubled.

Strikes broke out everywhere.

But now it was not to increase wages; it was to defend them.

No money was spent—there was none to spend. Trade wilted; bankruptcies became more numerous than ever before. Unemployment, practically unknown in France since the war, began to loom.

THERE WAS NO provision for the unemployed. Those who had relatives on the land drifted back to the farms, where they lived on family charity since there was no work for them in the fields either.

And all this time the big financiers with the Bank of France at their head were shouting for more and more economy, demanding new cuts in State expenditure on the threat of cutting off supplies. Craven ministers obeyed the command of the "Two Hundred Families" and paved the way for yesterday's bloodless revolution.

The workers waited for 1936, and when election time came they seized the opportunity and swept Leon Blum, the Socialist leader, to power on an irresistible wave of enthusiasm.

They chose no dictator, but a man whom they trusted to represent them and attend to their burning needs.

The realisation by the workers that they had, by constitutional means, won the upper hand was, I believe, the main cause of releasing the greatest spontaneous, unorganised strike movement in industrial history.

Beginning with the engineering workers of Paris, it spread through all the industries and all the regions of France. The workers felt that they were giving impetus to the work of the Government they had appointed.

THEY DID NOT want political revolution; they wanted better conditions in the existing order of things.

An overwhelming majority of the strikers belonged neither to trade unions nor to political parties and their action was in obedience to neither political nor trade union discipline.

In occupying the factories, they were, according to the employers, acting illegally. But because their movement was not political, their action stopped at the occupation of the factories.

Nothing was wrecked, no property was harmed. No attempt was made to retain possession of the factories for political ends.

The political maturity and moderation shown by the strikers was, on this occasion, reflected by most of the employers. They declared that they had never seen their establishments in such smart condition, and they made no attempt to have the men expelled. Within forty-eight hours they had granted all the demands of most of the first 100,000 strikers.

But the strike was spreading fast and the enemies of the new Government went about whispering, "What a terrible plight!"

Leon Blum neither abdicated nor betrayed the workers. He did what no other French Premier had been able to do: he brought together the biggest employers' organisation and the biggest workers' organisation for the first time in history.

AND HE SAW TO IT that they did not separate until they had reached and signed an agreement. Their agreement, with the signature of France's first Socialist Premier at the bottom, not only improves the material situation of between eight and ten million workers, but it raises the prestige, self-confidence and dignity of the French worker to a point hitherto only dreamed of.

It gives him a standing and a backing that seem heaven-sent after centuries of victimisation. It stipulates that no employer may discriminate against a workman on account of his beliefs or trade union membership. It ends for ever the malevolent practices of those employers of the Comité des Forges who, in Eastern France, had a secret method of hounding a trade union man out of industry.

The method was to use a certain, seemingly harmless, form of words in the statutory certificate of labour that must be produced by any man seeking a new job. As soon as this was recognised, the men were told that there was no work for them.

The agreement prevents employers side-tracking their men into the powerless "associations" favoured in place of properly constituted unions. It provides for collective agreements giving undreamed of guarantees of fair-play; and it provides for the appointment of shop stewards to represent the men in the day-to-day difficulties that arise between employers and their workers.

THE MEN NOW HAVE the law behind them, and to make all this they are pouring into the trade unions by thousands. French trade union membership has already passed the peak figure of 1921, and is still forging ahead.

Wages are to be increased by varying amounts, and starvation wages are to cease. The eight-hour day is a fact, and with it the annual holiday with pay—so much more leisure, and a break in the year's toil for the first time in the life of most French workers. And of course, more work for the unemployed.

No, France needs no Hitler.

Holidays are the days you will want to remember and nothing remembers like a Kodak.

Next week—next winter—the scene will be as vivid as ever, in snapshots. So on holiday trips, don't be one who "forgot to bring the camera." You'll get so much more out of the day by taking your Kodak along...

**KODAKS six-16 and six-20**—... that phrase describes these famous Kodaks. Their octagonal motif and fanciful side-snap shutters. Built around Eastman's smaller, all-metal film spool, they are notably compact. Pressure on a button snaps the camera open... the lens into position. And there is photographic capability galore. It reaches its peak in models equipped with Zeiss Tessar f.6.5 lens and Compur shutter—masters of light and action. Kodak six-16 picture size 2 1/4 x 4 1/4 inches. Kodak six-20—2 1/4 x 3 1/4 inches.

Any camera is a better camera when it's loaded with Kodak Verichrome Film. Good snapshots come twice as easy—you get them in the shade and on cloudy days, as well as in the sun. People don't have to squint into the light—you get their natural expressions, true to life.

## Glass Trick

SAY you can make a tumbler of water adhere to the ceiling. Send someone for the glass of water; ask someone else to give you a chair. Then get your victim: "You, old man, fetch me a walking stick, please. Hold the chair; thank you." Mount on the chair, carefully fix the point of the walking stick on the bottom of the glass, thus holding it firmly against the ceiling. Climb carefully down from the chair, then say to the victim: "Just hold the stick a minute, old man, carefully... both hands." Remove the chair and leave the victim isolated in the middle of the room holding the glass of water against the ceiling. He can do nothing in the end except let it drip. Apologise to the hostess, and mop up the carpet!

## Jumbled Novel

IF you know "Consequences" you can play this game. Principle is the same. First write the title of a book, anything you like, real or imaginary, on a slip of paper, turn down the flap to hide your title and pass on the paper to next man. Next player writes the sub-title—something ridiculous—next player the author's name; next one, the opening lines of chapter one, and so on, the paper going the rounds folded down each time so that no one knows what goes before. Some may treat it as a "thriller," others as a love story, others as a book of cookery hints. The result can be very amusing when the jumbled novel is read out at the end, providing each player exercises his imagination and tries to be as amusing or dramatic as possible.

## Levitation

TRY the levitation trick. Man sits on a chair. Four members of the company (they may include women) stand beside him, two on either side. Man on left and right of sifter places two fingers of right hand beneath the crook of his knees; man (or man and woman) at back of him place two fingers beneath his arms at shoulders. Lift. Nothing happens. He remains unmoved. Now each of the levitation party places right hand, left hand, right hand, and so on in sequence, on top of the sifter's head until the eight hands rest there in a pile, pressing slightly downwards. In the same order, hands are removed; fingers are applied as before to crook of sifter's knees and shoulders. All at once lift! And lo, and behold, up comes the sifter from the chair, suspended in mid air with no other support than the fingers of the levitators.

## "FIRST NIGHT" LISTS SOME MORE EXTRACTS FROM— LISTENERS' OPINIONS OF THE HONGKONG BROADCASTING STATION'S PROGRAMMES MORE SPORTS RELAYS: LESS ROTARY CLUB IS DEMAND OF MANY

More news of what listeners think of ZBW's programmes. In this series Rotary Club relays come in for a great deal of criticism. People want more sporting relays, less studio items, new records, and more instructive talks on local affairs.

There are many interesting suggestions in this series of extracts from suggestions made by readers who entered the recent Popular Radio Items' contest sponsored by the Hongkong "Telegraph."

This is what they say:

"J.H."—Cut Stock and Share Announcements. Listeners who are actually in the business consider these stale, whilst to the ordinary family they are boring. Weather reports are highly useful to seafarers, and local residents, and in the case of typhoons the reports should be given out more often.

"J.H."—Full results of horse racing, cricket, football, tennis, hockey, bowls and other sports are highly interesting if given out at about dinner time. The titles of the various pictures showing at the theatres would be a good reminder.

"B.S."—Announce names of songs—both from the studio and from the band-leader of the Hongkong Hotel. Relay once a week from the different ball-rooms in Hongkong, preferably the Cathay, China Emporium and Majestic.

"R.S.P."—Publicly auction off the present stock of much out-dated recordings.

"E.D.L."—ZBW's programme is 60 per cent. better than those broadcast through ZEK. Why? And what about an amateur hour? If ZBW is too tired to find local talent for this idea, why not relay the amateur hour broadcast by KZRM. It is a real treat.

"N.E."—ZBW has a "repetitive cycle" which should be eliminated. For example, about a fortnight ago we had a selection of Russian music for the first time, or, as far as I can recall, for a very considerable period. Next day the greater part of this programme was repeated, and this was done again either the same night or the night after, since we have been having Russian Music. Programmes are for the most part, divided not by category of amusement or by composers, but the executive, e.g. "Songs by Richard Crooks," "Music by Marek Weber and His Orchestra," etc., and it is a reasonable inference that the Hongkong Broadcasting Committee builds up its record library on the same lines. It is thus inevitable that, instead of having one or two records of any given piece, we have a big variety of the popular tunes of the moment, and scarcely any others.

In buying, say, a dozen records, the Committee does not obtain twenty-four new tunes. The dozen may include, for example, a couple by two different dance bands, one by an accordion band, one or two songs, an organ record, a medley of "Song Hits of the Moment," Popular Gems from the film or musical comedy so-and-so, and all these actually the same tune! I think I must have heard at least twenty different versions of the popular tunes from "Top Hat" over the air.

### CO-ORDINATION

There is no co-ordination between the Hongkong Hotel programmes and those by amateur jazz players or the recorded items. Thus, we frequently get tunes repeated firstly from the studio or Hotel and then on a record. It also happens fairly frequently that the Hotel

orchestra or jazz studio performers are immediately preceded or succeeded by recorded dance music of tunes they have rendered.

"W.K."—I suggest that ZBW eliminate local sporting commentaries for the reasons that (a) they are of purely sectional appeal; (b) they receive intensive attention from every angle in every issue of the local press, (c) the periods allotted to these commentaries could be devoted to items of more general interest.

For the same reason Book Reviews and Stock and Share Announcements should also be eliminated. I also suggest that the programme compilers do try to eliminate the practice of advertising a variety programme to fill the period from 10.03 to 11 p.m., when it is apparent at the outset that, also allowing for announcements, it is a sheer impossibility to complete that programme within the allotted space.

A case in point is attached. In this particular case two of the final numbers had to be omitted; this was only to be expected when 14 records, taking 56 minutes to play, were advertised for 57 minutes. Doesn't ZBW take announcement into consideration?

"J.M.X.C."—A void continuous broadcasts of one item. For instance, to have half an hour of pianoforte, then another half-hour of organ recital, is boring. Would suggest mixed programmes. Mrs. "M.K."—Stop those Rotary Talks. Only very occasionally are these interesting. Have amateur hour or else relegate all the present painful amateurs to one night per week. Only very few amateurs, like Doreen Ma, know their business and are worth listening to.

"A.C."—The less studio talks, Daventry news and Rotary Club relays from ZBW the better.

### CASH SWEEPS

"T.W.M."—I would like to suggest that the winning numbers of Cash Sweets for Racing at Happy Valley be broadcast on Saturday evenings. This system is in force in Manila and is welcomed by all listeners.

"L.K."—The News Bulletin at the 11 p.m. hour should be given immediately after the Weather Report at 11 p.m., so that listeners who are not interested in music can switch on the radio once instead of twice.

"A.R."—Stock and Share announcements are worthless to local investors or speculators, since they are given long after the closing of the Stock Market. How many of the 5,000 listeners are really interested in such announcements? In fact, I know several brokers and speculators who switch off when these announcements are made.

"N.K.M."—Give us more relays of local sports, and lectures on interesting subjects by interesting people.

"A.C.A."—Running commentaries on local sporting events would be really welcome to those who are unable to attend their favourite sport.

### CONTINUOUS BROADCAST

"G.L.R."—What has become of the scheme for continuous broadcasts in both English and Chinese from two transmitters. Can't the Chinese programmes be left to ZEK permanently and the English ones to ZBW?

"E.T."—I think far too many items are crowded into a single evening, so that one can never really sit down to enjoy, say, two hours of good music. A symphony concert one night in the week, in the winter, run on the medium wave to the public, in time, would be a great improvement. Remember how popular the "Proms" have become—why, one even hears the British workman discussing last night's "Prom" over his broad and cheese and "pink of beer." I think the general public can be educated to appreciate good music, and it is the duty of the local station to see to this.

"W.L.R."—Less repetition, please, of the same record throughout the week. "Familiarity breeds contempt." Why not some talks by medical men on general health principles applicable in the tropics.

"A.L."—Give us some talks on interesting subjects. The recent series in the "Telegraph" on "What I saw in Russia," by Sir Walter Crichton, would be excellent.

"J.M.C."—As the majority of listeners in Hongkong possess only small sets, and are compelled to tune in to ZBW, the local station should give more Surprise and Novelty items. These items would replace the "Globe-trotting" of the more fortunate owners of larger sets. Give us more Traditional Airs, Folk Songs and Traditional Dances,

English, Irish and Scottish. "Old Fare" would be a welcome change, besides reviving memories for the older generation.

### LOCAL AFFAIRS

"W.F."—Interest us in local affairs and in Chinese affairs. Most of the Hongkong residents do not know anything about the conditions in the interior, China's products, its mode of living, its roads, scenery, its art and its politics. Instructive studio talks would help us to get to know the country we have made our home.

"E.H."—Most of our dance records are British. Why not broadcast some American ones. British are good, I'll admit, but American orchestras also know how to play dance music, and many of their recordings are much more interesting.

"Mrs. K.J."—Rotary talks should be relayed only when the subject is of general interest. Dance music (except on Saturday nights) should be limited to 30 minutes for each broadcast.

"C.A.N."—European programmes should be broadcast from ZEK hours, those periods that ZBW is given over to Chinese programmes, and vice versa. A summary of local sport should be given each evening.

"F.W.C."—Either publish, or announce, the number and make of records used in programmes. Substitute a link, or even a reading, for a portion of the everlasting dance music which at present seems to be the sole means of padding out programmes.

### SHEER WASTE OF TIME

"S.P."—Stock and Share Announcements are a sheer waste of time. Not every listener is a speculator and, in any case, why should business be imposed on pleasure. Rotary Club talks are definitely boring, as most of the topics chosen by speakers are too technical. By all means have Rotary talks now and then, provided that they are interesting to the average listener.

"S.P.F."—If ZBW cannot afford to purchase new records, why not auction its library of old records, and with the money obtained thereby purchase new ones. As an alternative, why not attempt to exchange records with listeners, or with broadcasting stations in other parts of the Far East.

"R.F."—I would recommend the adoption of a daily "Request Programme." In order that listeners could send in their request numbers for broadcast during this period.

"E.F.W."—I would like to suggest that ZBW broadcast some of the "Sam" series of records, and also that, say once a month, every broadcast one of the well-known operas. I'm sure the latter would be appreciated by unfortunate music lovers here who never have a chance to hear decent music.

"Mrs. M.H.W."—Short talks on the modes of living of different people (farmers, seamen, etc.) would be appreciated. It might be possible to present these dramatically as Daventry does. This would also be excellent fare for the local short-wave station.

"H.W.M."—When relaying from Chinese Theatre programmes, it is most annoying to be cut off at 11 p.m. sharp, before the show finishes. How would you like to hear 75 per cent. of a relay of some play in English?

"F.Q."—Regulate the programmes so that each hour or so contains the other. Some days we have very good programmes; other days they are putrid.

"Miss W.R."—I would like to suggest that ZBW broadcast some local radio playlets—such as those occasionally heard from Daventry. These should prove popular, provided suitable talent is found. Lastly, I would like to suggest that during the winter evenings, the Hongkong Hotel dance orchestra be not interrupted by the "Children's Hour," which could be arranged for another evening.

### LOCAL TALKS

"N.W.H."—Many people want to learn something of the language spoken around them. Therefore, what about giving us some Cantonese lessons, such as those broadcast by the Rev. Mr. Wang recently. In addition, ZBW could broadcast ten minute periods of colloquial Cantonese, spoken very slowly by a Chinese, who could give simple conversations on everyday subjects. Also, I would like to suggest weekly talks on matters of local interest, e.g. Hongkong geology (Mr. Schofield might supply a paper), Temples and Monasteries, local industries, a talk by Mr. Jeffries on how local forecasts are made, Chinese art, philosophy (what about Dr. Reichelt?) customs and superstitions and modern history. This latter is most confusing to Europeans. During the winter months detailed instructions should be given for routes to be taken on hikes.

"A.L."—Less frequent Rotary Club relays would be appreciated. These talks are reported in detail in the papers. Have a Request Night once a month. Have interesting short talks on Nature and the beauty spots of the Colony, and on how to use the Colony's beautiful by-paths and picnic spots. Give us talks on motoring, on health, on popular hobbies. And, for goodness sake, once you've started an item, do not interrupt it.

"Mrs. B.L."—Devote less time to exchange quotations.

"R.S."—During Hongkong Hotel

dance orchestra relays, the titles of each number should be announced by the band leader. Tiffin programmes should be much lighter.

### COPY KZRM

"H.G.A."—Why not devote an hour or two daily to local affairs, such as farewells to people, school celebrations. You could copy KZRM in this respect by broadcasting "Welcome" announcements to ships arriving in port, especially when any local celebrities are aboard. These ships (especially the American ones) rebroadcast these programmes to their passengers.

"L.J.S."—Movements, especially arrivals of mails and British and foreign warships, would be interesting. Other items of local interest, such as race meetings, sports fixtures, etc., should be broadcast. Could not the results of Saturday afternoon's sporting events be broadcast on Saturday night?

"H.S."—Give us sporting results after the 8 p.m. weather report.

"A.B."—Listeners would appreciate more broadcasts by the bands of visiting ships, especially Eddie Harkness' band, and by visiting celebrities.

"H.E.W."—Greater efforts should be made to persuade visiting celebrities such as Rudolf Friml, Anna May Wong, Warner Oland, etc., to say a few words through ZBW. Take the "mike" down to the ships.

"U.A."—Some time ago we had some lovely mouth-organ recitals from the fleet units. Some more of this kind of music would be much appreciated, not probably, by the "high-brows," but certainly by the lesser 5,000.

"D.P.F."—The Rotary relays should be done away with, in as much as full reports always appear in the local newspapers.

"S.F.Y."—I wish to suggest that classical music, preceded by a short explanation such as was given by the Rev. Mr. Sargent, would be very much appreciated.

### BORED STIFF

"A.R."—Up to the present tiffin programmes have been satisfactory, but I think they would be more satisfactory if the Rotary Club talks could be pruned considerably. Seventy per cent. of the listeners are bored stiff by them, and in any case full reports can be read by those interested in the local newspapers.

What about more relays from some of the Cabarets. Their music (usually the latest tunes) should replace records.

In addition to the Reiter news ZBW should broadcast local sporting events.

"Mrs. M.A.B."—Programmes should be carried on until midnight. They are in every other part of the world. Local news of outstanding interest should be broadcast.

"I.P."—I would suggest a monthly invitation to listeners for suggestions in the selection of new records; a weekly request night, and an amateur night every fortnight.

"S.A.I."—Rotary Club relays should be dispensed with. Most of the speeches are of little interest to the general public and they are all reported by the newspapers.

"F.C.H."—Cut out Rotary tiffin speeches. They are seldom interesting, often come over badly, and are reported fully in the paper next day. Reduce talks to a minimum. If they were all as interesting as that by the Commander of the "Dorado" they might be tolerable. But they aren't.

### NATIONAL ANTHEM

"Mrs. B.F.O."—I would like to suggest, as my humble contribution, that ZBW play the National Anthem at the end of the day's programme. If Stock and Share announcements must be given, they should be broadcast during the business part of the day, and not at night. ZBW should be given over entirely to English programmes, ZEK to Chinese.

"C.S."—ZBW should broadcast continuous Chinese programmes. Allow certain times for certain types of entertainment, if possible for the whole week, just like KZRM.

"P.S."—Studio clock time should be given more frequently. When the fleet returns we hope to hear more of their delightful concerts.

"J.C."—Give us talks and debates on current affairs and some plays. Cut out those endless stock quotations, but give us instead running commentaries on local sporting events.

"Mr. A.C."—Cut out Singapore Raw Rubber quotations. Give the numbers of new records in the two minute interval before the news.

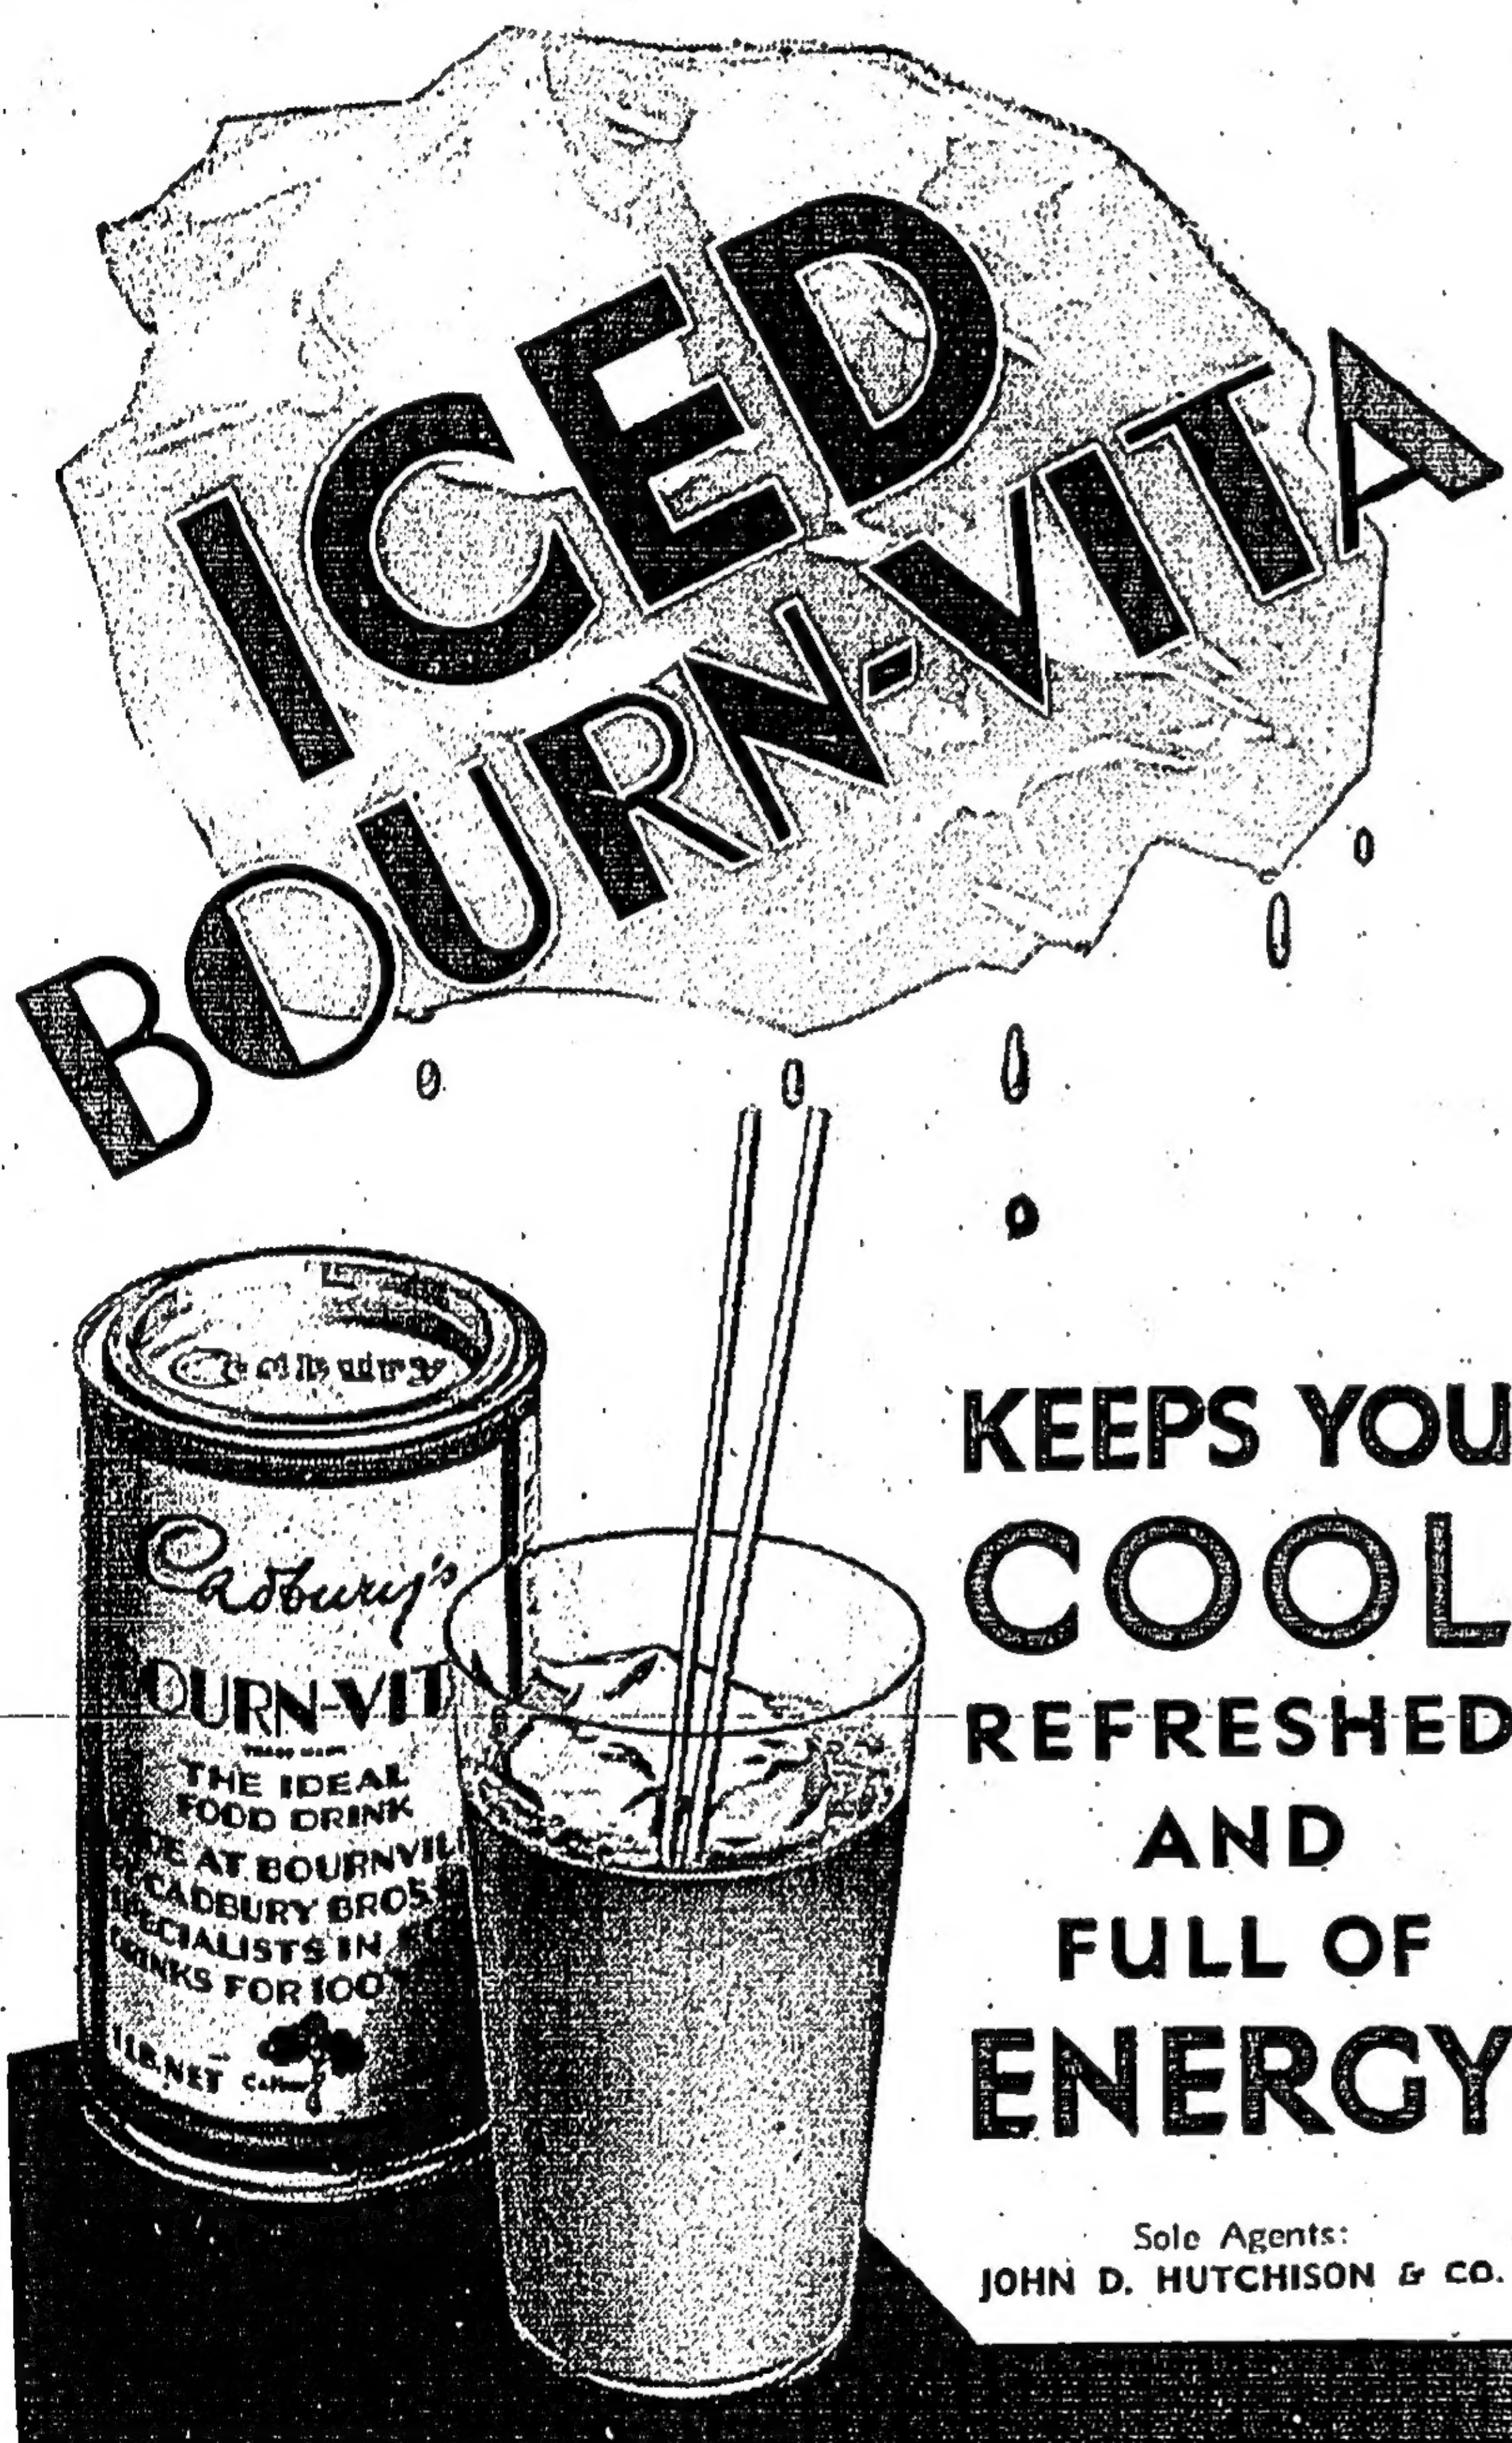

"R.B."—The Committee should appoint a capable "Scout" to attend all concerts, recitals, etc. and note suitable artists who should then be invited to broadcast. Programmes should be arranged so that the same item does not appear more than once in a period of a week.

"Miss S.B."—It is some considerable time since there have been any plays broadcast. Would it not be possible for one play a month to be produced?

### REQUEST NIGHTS

"Mrs. A.M."—Give a "Request Night" of items suggested by listeners. Scrap some of the old records, such as "Danny Malone" and "Will Some Kind Gentleman Help Me Find My Dog".

"R.J.G."—Give more of Peter Simple.

## How To Do It

**F**IVE possible answers are given for each question. Example  
Q. The Prime Minister of Great Britain is (1) MacDonald,  
(2) Chamberlain, (3) Hailsham, (4) Baldwin, (5) Lloyd  
George.  
Baldwin is the correct answer. The number of this question  
is 6; the number 4 (meaning Baldwin) has been placed at the  
right of 6 on the answer sheet. At the end of the Test check

# GAMES

## IN CASE IT'S DRY

### Ball Game

**A**LL you need for this game is a bouncing ball and the side of a house. Each person playing is given the name of a day of the week—Sunday, Monday, Tuesday, etc.—One person throws the ball against the house, at the same time calling the name of any other player. For example, Sunday throws it, calls "Friday." Friday must catch it before it touches the ground. All the other players run away. If Friday catches it he throws it again, calling another name. If he fails to catch it he retrieves it and shouts "Halt." The others must stop running away. He then tries to hit one of the others, who must not move. If he misses he's penalised and has the next throw at the wall. If he hits, the person struck loses a "life" and has the next throw.

And so on till all are out.  
It's a strenuous game, good for you, bad for any windows that get in the way of the ball.

### Treasure Hunt

**G**IVE guests a list of articles they must bring to the party. One who gets there first with list complete (or nearly so) wins prize. You can think out your own lists, but here are some ideas:

A needle without an eye; (Gramophone needle).  
A button you can't sew on (Bachelor's button).  
A pin with two points: (Clothes pin).  
The Tale of Two Cities: (The suffix—dam; written, Amsterdam, Rotterdam).

A bulb that never flowers: (An electric bulb).  
And so on, according to your powers of invention. You may make the game as simple or as difficult as you like, but do not burden guests with heavy or impossible articles. Wait until all are assembled then cross-examine them on what they have brought and why. Answers and reasons provide half the amusement.

### Rounders

**P**LACE your field, batsman and bowler. Play so many a side. Bowl, batsman drops stick on base and runs round stands as in base ball. He (and he only) is out if his hit is caught. If he completes the round, he continues batting. If he stops half way another member of his side bats.

If you are touched by the thrown ball when not at your base or at a stand on the way round, you are out.

Anything will make good stands or base—trees, sticks stuck in the ground, or hats, but players on the batting side must remember to run round the bases, never taking short cuts on the inside. You may feel a run to make the bowling side throw the ball in confusion and so give your side a snatch run. Anything will do for a bat and half a walking stick and a piece of paper rolled and tied with string—but be careful of the man next door's windows. Better still, ask him to join in the fun.

## Humour In This Humidity?

**EXCHANGE** of Correspondence  
between Mr. Edward Kelly,  
well known life-of-the-party and  
man-about-town and Editor,  
Hongkong "Telegraph".

Dear Kelly: Apparently you are labouring under some misapprehension regarding the holiday you were to have from these columns. When do you intend re-commencing the "Very Idea"—Editor.

Dear Editor.—We girls have our price.—Eddie.

Dear Eddie.—What is your price?—Editor.

Dear Editor.—Ten cents.—Eddie.

Dear Eddie.—You can start at that rate.—Editor.

When we visited the office to elicit the deal, we thought we'd better have it down in black and white. (Presumably, for well-known Scottish distillers).

"Put it in writing," we said firmly. "Ten cents a word."

We won't waste space going into details about the hugging that ensued. Anyway, we compromised by his offer of ten cents an article and our demand for ten cents a word by agreeing to turn out a weekly reviewed this week, is (1) "Archaeology in the Far East" (2) "The New Culture in China" (3) Chinese Anecdotes; (4) "A Short History of Hongkong"; (5) "China to-day".

24.—A motion picture screened in Hongkong during the week was "A Message to Garcia". This film featured (1) Wallace Beery; (2) Clark Gable; (3) Noah Beery; (4) George Raft; (5) Gary Cooper.

25.—The twelfth Dolmetsch festival has just concluded at Haslemere. This festival is concerned with (1) folk-dancing, (2) miracle plays (3) pottery and other peasant arts, (4) eurythmics, (5) classical music.

26.—Rudolph Friml, the famous composer, has returned to Hollywood from Hongkong in order to compose the music for a new film featuring Grace Moore. Rudolph Friml is famous as the composer of the music in (1) "Maid of the Mountains" (2) "The Student Prince"; (3) "Rose Marie"; (4) "Pirates of Penzance"; (5) "Show Boat".

## Sport

27.—The Hongkong Lawn Tennis Association has issued the Colony tennis ranking lists for 1936. The No. 1 position on the men's list is held by (1) S. A. Rumjahn; (2) Tsui Yun-pui; (3) E. C. Fletcher; (4) Tsui Wai-pui; (5) H. D. Rumjahn.

28.—A feature of the forthcoming Test Matches against Australia will be (1) aluminium-handled bats, (2) a "referee" who will exercise a casting vote in the event of disagreement between umpires, (3) stumps which are 1 in. longer, (4) an over of eight balls, (5) a break of 5 mins. at the end of each hour's play.

29.—The next Olympic Games will be held in 1941, and preparations are already being made for them. They will be held in (1) London; (2) Sydney; (3) Helsinki; (4) Rome; (5) Tokyo.

30.—The Professional Tennis Championship of France was won this week by (1) L. Stiefen; (2) H. Cochet; (3) Martin Pina; (4) Albert Burke; (5) W. Tilden.

## Why is a Whale?

**S**EEING that a whale blundered into Singapore and left itself scattered all over the foresters, we have made a few enquiries about whales, last two whales having died on us a/c (my, what familiar words!) of over-feeding.

Whales are of various sorts. Sperm whales, hump-backed whales, blue whales, Prince of Wales, South Wales, baby whales, and it goes on like that. Whales have calves but no feet. They are the only fish who blow their noses. Their young swim in schools, but don't learn nothing. Whales are too big.

Ambergris comes from male whales. Verdigris from female whales. Candelgris from candle-grease whales, which have not yet been discovered, but anything is likely to happen.

No whale has been known to travel sideways. Whether this is due to lack of initiative or pure nastiness has not yet been found out.

Whales have no fins. This was a frequent source of annoyance to Jonah, who made whales sick. If Jonah had been in a modern whale, he would have had a telephone in with hot and cold water service and periscope.

Catching whales is done with harpoons. A harpoon is a small harp. The harpoon is barbed. A barboon is a small barb, or baby baboon. The instrument is thrown at the whale and penetrates the blubber.

The whale lubbers and wails. Hence present depression. Whales make very unsuitable pets, as they are likely to go mad and kick the face of the hand that fed them.

Whales sound frequently, but never shout.

## Don't like whales.

## Dope on Dope

**L**OOKS as if the heroin pill is the bitter pill for Hongkong Government. There's so much heroin smoking going on now that Government's usual annual revenue of \$5,000,000 from the sale of opium has dropped to a mere pittance of \$300,000.

This sort of thing has got to be stopped. Government, making an honest penny out of opium, is faced with financial disaster through this drug menace.

The general public must put its shoulder to the wheel and pull with all its might to see that this heroin menace is stamped out and the Colony is made safe for Government opium.

In case we forget, remind us to tell "Argus" on Monday to make a pun about a female heroin addict being a heroine.

## Painful Afterthought

**N**OTICE that the Spanish Government has sequestered all the mansions and property of rich Spaniards suspected of abetting the rebels. This comes of building castles in Spain.

## Summer Sure To

## Appreciate This:

**B**ESIDES whales, we don't like hot weather.

It not only ruins your stomach but ruins your clothes. Even a dog gets that way: doesn't it perspire through its pores? Up, we are all keen for the frozen north, where men are men and spend all their time ski-ing, and shes see that skis are not the only things that interest kids.

And around you is nothing but ice, which obviously is worthless unless you take a good supply of whiskey and soda. When your wife comes home to your igloo you're just a chunk and then they have that delicious task of warming you.

## Girls' and Boys' Corner

Dear Kiddies.—Judging by the number of entries sent in, you were all keen on winning the special prizes of Cadbury's milk chocolate, generously donated by Messrs. John D. Hutchison and Co., Ltd. It's also clear that you like crossword puzzles.

Last week's puzzle was not too easy, and this no doubt explains why only six Seniors and four Juniors sent in correct solutions. The most mistakes were the definition of the word "Skilful" (for which the correct answer was "Delft") and the abbreviation for Able Seaman (correct definition, "A.B.?).

Taking age and neatness into account, I have decided to award the Senior prize of three six-ounce blocks of chocolate to

Amina Abdul Currem (aged 12).  
In the Junior Section, the prize of three six-ounce blocks of chocolates goes to

Elinor Meffan (aged 9), 15 Stanley Terrace, Quarry Bay.

The winners are requested to call at the "Telegraph" office for their prizes.

Specially commended for good work are David McCausland, Betty Wadmore, Des Raj, David Chen, Elfrida Ribeiro and George Kirmax among the Seniors; and Eileen Andrew and Heather Sanderson among the Juniors.

It may be mentioned that two competitors over 14 years of age sent in solutions. These had to be disqualified, as the Senior Section is confined to children between the ages of 10 and 14.

Now, children, I've got a really new Competition for you this week.

In the accompanying illustration you will see eight pictures, in each of which an error has been made. See if you can pick out the mistakes, and then make a neat numbered list on a postcard or a piece of paper.

There will again be two prizes for the most correct and neatest replies sent in—one for children from 10 to 14, and the other for those under 10. In each instance, the prize will be three six-ounce blocks of Cadbury's milk chocolate, kindly presented by Messrs. John D. Hutchison and Co., Ltd.

Address your entries to Uncle Eddie, c/o "Hongkong Telegraph," to reach him not later than 4 p.m. on Wednesday. Be careful to state your age on the entry. Now, see how many errors you can find.

### PROBLEM I

#### SIMPLE ADDITION

Here is an addition sum:

BALL

BAT

BOKO

If each letter represents a digit, and if KO=five times BO, what are the respective values of BALL and BAT?

### PROBLEM II

#### DANGEROUS AGES

When I asked my old friend, Watta Mystery, her age she said:

"My dear Hubert, I know what you like is a puzzle. So here you are:

"In six years' time my father's age will be three times what mine was when my father's age was equal to the sum of my age and my sister's. My age now is equal to what my father's age was then. My sister's age is double what her age was then. And in nineteen years' time my father's age will be double what my sister's age is now."

How old is Watta?

### PROBLEM III

#### A WORD SQUARE

1. Bishop's cassock back to front.  
2. College window.  
3. A Sheridan character.  
4. Eden's end.  
5. A man of the moment.

## "These Men Will Constitute Our Only Source of Reinforcement In the Greatest of All Emergencies"

### General Officer Commanding Criticises Local Britons Who Refuse To Join Volunteers

#### POOR RESPONSE TO CIRCULAR TO GOVT. EMPLOYEES

#### ANNUAL REPORT TO WAR OFFICE STRESSES VALUE OF CORPS TO DEFENCE OF COLONY

"Telegraph" Staff Representative

BRITISH residents of Hongkong between the ages of 20 and 40 are indirectly criticised by the General Officer Commanding the British Troops in China, Major General A. W. Bartholomew, C.B., C.M.G., C.B.E., D.S.O., in his first Annual Report to the War Office on the Hongkong Volunteer Defence Corps.

Although the non-British strength of the Volunteer Corps increased during 1935 by 168, the European British strength decreased by six men!

"It is our failure to attract into the Corps the 300 to 400 British men of suitable age in the Colony—most of whom have never undergone any military training whatsoever—which remains our chief local problem," the General Officer Commanding writes in his Report.

"These men will probably constitute our only source of reinforcement in the greatest of all emergencies."

"At least half of these men are in Government Service. On his arrival in Hongkong in December, 1935, His Excellency the Governor, Sir Andrew Caldecott, was faced by a despatch from the Secretary of State for the Colonies pointing out that the Overseas Defence Committee wished all eligible European Government Servants to be induced to volunteer and make themselves efficient."

"His Excellency promptly met this requirement by issuing a memorandum to all Government Departments. The response to date can hardly be described as satisfactory. Out of some 150 eligible British (in the civil service):

7 have presented themselves for enrolment in the Naval Volunteers;

24 have presented themselves for enrolment in the Defence Corps (of whom 20 are European British).

"His Excellency is showing the greatest possible personal interest in the welfare and efficiency of the Volunteer Forces, and I have little doubt that more effective inducements can be put forward."

The Annual Report of the General Officer Commanding covers the 1935-36 period.

"I have had the privilege of witnessing the activities of the Corps for the past five months only of the period under review," Maj. Gen. Bartholomew writes. "In that relatively short space of time I have watched the work of all units of the Corps in the Combined Operations Exercise in March, and I have attended day and night practice seaward by the Volunteer Battery and Engineers."

"From personal observation, therefore, I am able to confirm the opinion held by my predecessor, that the Corps is correctly organised so that its component parts fit into the defence of the Fortress as a whole; that the role of each sub-unit is of great importance to the safety of the Colony; and that the efficiency of each sub-unit is of a reasonably high standard."

#### PEACE STRENGTH

"The nett peace strength of the Corps has increased by 174 during the last twelve months. This increase is made up as follows:

Increase	Decrease
75 Portuguese	6 European British
49 Eurasians	
25 Indians	
31 Chinese (and other nationalities)	

Concluding his Report to the War Office, Maj. Gen. Bartholomew writes:

"In conclusion I should like to record my very real appreciation of the serious and earnest manner in which the enrolled personnel of the Hongkong Volunteer Defence Corps apply themselves to their eminently important tasks."

"That they do so is to a very large extent due to the personal example set by Lieutenant Colonel H.B.L. Dowbiggin, O.B.E., throughout his thirty years' service in the Corps. Whether this officer retires in August or not, he is deserving of the highest degree of appreciation by the Colonial Government, and by the Army Council, as well as by local civil and military communities in Hongkong."

#### DECREASE IN BRITONS

An appendix shows the nationalities of Volunteers who have resigned or joined the Corps during the period April 16, 1935 to April 16, 1936.

The following nationalities resigned:

British	64
German	1

Italian	1
Russian	1
Eurasian	1
Malayan	1
Indian	1
Portuguese	6
while the following nationalities joined:	
British	58
Portuguese	81
Eurasian	50
Indian	26
Others	35

#### YOUNG MEN AT FAULT

The Commandant's Report reads in part as follows:

"The number of Volunteers and ex-Volunteers compared with the man-power strength of the Colony is still low, but shows an improvement."

"The average age of the former is high enough to focus the fault on the younger residents in the Colony."

"The number recruited during the year (1935-36) was:

Men with previous experience	74
Men without previous experience	176
Total	250

"Of the 76 who have left the Corps, only five left of their own volition after three years' service or more, others leaving the Colony on retirement or transfer to other posts."

#### JUBILEE MEDAL

During the period under review, the Commandant reports that the following members of the Corps were awarded the Jubilee Medal: Colonel L. G. Bird, O.B.E., O.B.E., Lt. Col. B. L. Dowbiggin, O.B.E., Lt. Col. G. D. R. Black, O.B.E., V.D., M.D., Major, E. J. R. Mitchell, O.B.E., Lt. N. V. Hildyard, M.C., M.A., B.Y. Serjt.-Maj. J. M. Jack, C.M.P., Serjt.-Maj. M. F. Baptista, Serjt. E. C. Hudson, M.C.

The following members and ex-members of the Corps were awarded the Efficiency Medal in March, 1936: Lt. A. W. Brown, Lt. A. Urquhart, R.Q.M.S. A. E. Kew, C.S.M. R.E.G. Charles, C.S.M. G. T. Padgett, M.A., R.Q.M.S. J. A. Howe, Serjt. Drummer W. Brown, Serjt. W. F. Webb, Corpl. J. V. Ramsay, L/Bdr. C. E. Moore, Corpl. J. J. King, Pte. A. Morley, Pte. G. H. Cuthill, Pte. H. Bulean, Gnr. H. #### Colony Censorship

### "Govt. Will Review Entire Subject"—Official STATEMENT FOLLOWS EXPOSURE OF SAMPLES OF BUREAU'S WORK

"Telegraph" Staff Reporter

The "Telegraph" can reveal to-day that there is every possibility that the Hongkong Government will review the entire question of censorship of Chinese newspapers published in the Colony. It will be recalled that the "Telegraph" yesterday published extracts from the *Kung Shing* newspaper's Censor Bureau's proof of an article on Censorship.

These extracts conclusively showed that censorship of Chinese newspapers covered more than the contingencies outlined in Government's defence of the system.

Interviewed on the subject, Mr. R. A. D. Forrest, Acting Colonial Secretary, told me that it is possible that Government may bring about changes in the administration of the law relating to censorship, and that the question was now under discussion.

"Government did not have the details of Mr. Lo's arguments until too short a time before the meeting of the Legislative Council to permit a thorough investigation of the subject on the lines on which Mr. Lo argued his case," Mr. Forrest said.

"The matter will be thoroughly investigated from all the points of view suggested by the supporters of the motion in Legislative Council."

### NEW TECHNICAL SCHOOL TO BE OPENED SOON

"Telegraph" Special Representative

A fine large building has just been completed in Wood Road, Wanchai, which marks the second important stage in trade and technical education in this Colony.

Wood Road School will be opened in November with a comprehensive curriculum of building construction and engineering instruction which is designed to meet the needs of many apprentices to the trade, particularly among the Chinese.

The completion of this school necessitates a new title for Mr. G. White, present head of the Junior Technical School. Mr. White is at present on leave and when he returns in November he will be Principal of Trade and Technical Schools. A notable feature of the handsome building in which studies will be conducted with first class equipment and tuition, is the co-operation of the Chinese Building Contractors' Association who quoted special rates for carrying out the work, though the designs were drawn up by Government. The cost of the school was given in the last estimates at \$100,000 and the building has occupied well over a year.

On the ground floor it comprises machine and fitting shop, motor car repair shop, blacksmith's forge, power house and rooms for instruction in bricklaying and plumbing work. There is also a large store and canteen quarters.

The first floor includes a carpenter's shop, laboratory, engineering and building drawing office and lecture rooms and other rooms for instruction in electrical work and building trades.

On the second floor there are study offices and class rooms.

The majority of the students will, of course, be Chinese and probably from the age of 16 upwards. There will be provision for day time and evening studies, full and part courses, though until the Principal returns the full syllabus will not be completed.

During his leave Mr. White is collecting equipment and is recruiting one qualified European instructor in engineering.

### AUSTRALIANS N. ZEALANDERS' MYSTERY EVENT THIS EVENING

MEMBERS of the Australian and New Zealand Association and their friends will participate in a mystery event this evening.

Most of popular functions in their homelands, this is the first time the scheme has been tried in Hongkong. The members will meet at the Police Pier, Kowloon, at 9 p.m. No one but members of the Social Committee know what is to happen afterwards.

The notification to members simply suggests that they bring their bathing costumes, and that each lady provides supper for two. Coffee, bottled in real Australian bush style, will be available at the secret destination.

No charges are being made for ladies who participate in the function. Gentlemen will be charged one dollar.

A BROKEN DOWN SYSTEM.  
This is a condition (or disease) to which many names are given but few really understand. It is simply weakness—a break down as it were, of the vital forces that sustain the system. No matter what may be its causes (they are almost innumerable), its symptoms are much the same: the more prominent being sleeplessness, sense of prostration or weakness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is essential in all such cases is increased vitality, vigour, what strength and energy to throw off these morbid feelings, and as night succeeds the day this may be more definitely secured by a course of THE NEW FRENCH REMEDY, THERAPION No. 3 than by any other known combination. So surely as it is taken in accordance with the printed directions will the shattered health be restored. THE EXPIRING LAMP OF LIFE LIGHTED UP AFRASH and new energies imparted in place of the old. This preparation is suitable for all ages, constitutions and conditions, in either sex, and is difficult to imagine a disease or ailment to which whose main feature is weakness, nervousness, and inactivity, everything that has been tried has failed, this remedy will surely succeed. It is a French Preparation, and is sold by all chemists and druggists. (Continued on Page 4.)

## General Has Served For 52 Years—But Has Never Seen A Battle

BY DUDLEY BARKER

### Policemen Drank "Best Part Of His Bottle Of Gin"

**DIALOGUE** at Bow-street, after Police Constable Warnford had said he visited a bottle party in plain clothes, paid 24s., had a bottle of gin:—  
Bottle party proprietor: I think you drank the best part of the bottle?  
Police Constable Warnford: I should think so. Yes.  
B. P. Proprietor: You could not have made very clear notes, after drinking about three parts of a bottle of gin?  
Police Constable Warnford: I could remember a lot of what occurred.

The proprietor, Sidney Kavolic, of Cambridge-street, W.C., owner of the Venetian Bottle Party, Kingly-street, W., was fined £100 and ordered to pay £20 costs for selling liquor without a licence; £50, with £10 costs, for keeping the place for public drinking without an L.C.C. licence.  
His wife, Marion Kavolic, was fined £20. Mrs. Ray Teague, dance hostess, £10, and Miss Doreen Learner, dance hostess, £5 for selling drinks without a licence.

### FILM STAR IS VALUED AT £1,000,000

New York, Aug. 18.  
FILM star Gary Cooper's value is assessed at £1,000,000 by Paramount Productions, Inc., his present contract holders.

To-day began a legal action to recover £1,000,000 damages from Mr. Samuel Goldwyn.  
Paramount allege that Cooper was lured from them by "false and fraudulent" statements while they were negotiating with him for a new contract. The allegation is denied.  
Gary Cooper's more recent starring parts were in "Destiny" and "Lives of a Bengal Lancer."

AN American general who is on holiday in London holds a nice record. At the age of 72 he has served continuously in the American army and the National Guard for 52 years—and has never once seen a battle.

"It all started with the Spanish war of '98," General de Witt Clinton Falls said as he described the seven wars which he nearly saw.

#### WENT TO RUSSIA

"Not that there was very much to see. I was in the crowd that went to Porto Rico, and by the time we got there the war was over. In fact, we were met on the dock by the local band playing 'The Star-Spangled Banner' in the island we were supposed to be invading. So we all had a nice winter in the sunshine and went off home."

"Then, in 1904, I was with the Turks while they contemplated war with Bulgaria for three months. But in the end they did not do anything about it."

"After that I went to Russia as Military Attache to the Russian army in the Russo-Japanese war—of course, was nowhere near the fighting, but I saw a lot of mobilisation."

"There was one little adventure in 1911 when I went down with the Montenegri in the first Balkan war. I was miles from the front. Then I came over to this country and went back to Brussels, where I was when the Great War started."

"As soon as the Germans started bombing we were moved back as we were only observers."

"I spent the next few months in England and Scotland taking part in the mobilisation proceedings, and then I had to hurry back to America in 1916 because they thought there was going to be a war with Mexico."

#### WAR WAS OVER

"We sat on the Mexican border for six months in the tropical heat—the most monotonous thing I ever knew—and in the end there wasn't any war after all."

"When I got back to New York I got pneumonia. When America joined the war I was not fit enough to come back to Europe again."

"I did a certain amount of time with a training regiment, and just as I was drafted to an active service unit the war finished."

"I stayed on the general staff for two or three years, and then went back to the National Guard. Now my job is writing the history of the National Guard—the same thing as your Territorial Army—in New York State."

"Since then," said the General with a sigh of relief, "things have been pretty peaceful."

## Nobody Will "Furnish A Mess Of Dillegroust" At Coronation

The ancient Court of Claims, which dates back certainly to the Coronation of King Richard II., has opened in public in the Privy Council Offices, Whitehall.

After the opening, however, the rest of the meetings of the Court will be held in private, and the Commissioners will then decide the "cast" for the pageantry of next year's Coronation procession.

The duty of the Court of Claims is to hear the various claimants for the hereditary offices at a Coronation, and to decide who shall perform them when King Edward VIII. is crowned.

Some of the claimants will plead in person; most of them, however, will be represented by counsel.

#### BISHOPS' HONOUR

There will probably be little dispute over most of the important positions. Two are, by long custom, never disputed—the right of the Bishops of Durham and of Bath and Wells to support the Sovereign during the ceremony.

Some of the other important rights are:

To instruct the King in the rites and ceremonies (accorded

usually to the Dean and Chapter of Westminster);

To carry the Royal Standard of Scotland;

To carry a White Wand as Lord High Steward of Ireland; to provide a Glove for the King's right hand (which at the last Coronation was given to the Duke of Newcastle by tenure of the Manor of Workson);

To carry a canopy over the King, if he wishes to have one (a claim last allowed to the Barons of the Cinque Ports);

To allow the Lord Mayor of London to bear the Crystal Mace.

At King George's Court of Claims there was only one important dispute. The right to carry the Great Spurs was claimed by the Earl of London, Lord Grey de Ruthyn and Lord Hastings.

At King Edward VII's Coronation, the same titles had all claimed this office, which had been disallowed, as none of them had made out his claim.

#### NO BANQUET

In 1910, however, it was decided that the Earl of London and Lord Grey de Ruthyn had both established the claim, and it was left to the

### THE CADS AT IT AGAIN

#### OLD SCHOOL TIE TO BE CHANGED

The cads have been at it again, in England, wearing old school ties to which they are most certainly not entitled.

"As the years go by the question of the old school tie appears to become more vexed," says Mr. R. Porch, secretary of the Malvernian Society, writing in the Malvern College magazine.

"The 30 years I have been secretary there has been a regular stream of letters on the subject of the Old Malvernian colours, usually to say they were being worn by niggers in Liverpool docks or bookies' touts."

"The tie is bright and appealed to this type."

#### CUTTING OUT APPEAL

"Other public schools and clubs have already done what we now have, namely, modified the colours in hope they will no longer appeal to the taste of the above-mentioned gentlemen."

The Old Malvernians' tie consists of blue, black and red diagonal stripes.

"I think the colours are very distinctive and should not be modified," said Mr. H. Nevill Smart, O.B.E., an Old Malvernian.

"There are always people about who take a delight in wearing, say, an Etonian's tie when they have never been to Eton. Nice people don't do that sort of thing, but, of course, there is nothing to stop them."

Now, then, cads, cut it out.

King to decide how the office should be performed.

The flavour of ancient offices still touches the Court of Claims, but much of the picturesque has now departed, mainly because, since the Coronation of George IV., the great banquet that followed in Westminster Hall has not been held.

For that reason many of the old offices, such as that of larderer, of napper, of carver or panterer have automatically lost all meaning, and are not now claimed.

Claims to the right to make wafers, to be Sergeant of the Silver Scullery, to serve the King with a towel before the banquet, or to furnish a mass of Dillegroust have either been dropped in recent years or have been placed outside the jurisdiction of the Court on the grounds that there is no banquet.

(Dillegroust was the potage which used to be made for the King's table on the coronation day. There was a "banquet in serenity" by which lands were held of the king by the service of providing this potage for that occasion.)

The most picturesque of all these offices, that of the King's Champion, has suffered a similar fate.

Until the time of George IV., the King's Champion appeared at the door of Westminster Hall during the banquet, mounted on a charger, and challenged any person to mortal combat who would dispute the King's right to the Crown.

#### CLAIM DROPPED

By ancient right, that office belonged to the Dymoke family, as owners of the Manor of Scrivelaby, Lincolnshire, and the last to hold the office, at the Coronation of George IV., was the Rev. John Dymoke.

At the Coronations of William IV. and Queen Victoria the family made no claim to the office, and it was dropped. When King Edward VII. was crowned however, Mr. Frank Dymoke put forward his family's claim once more. It was excluded from the jurisdiction of the Court as pertaining to the former banquet.

The same thing happened when Mr. Frank Scaman Dymoke raised the claim again for the Coronation of King George.

# KOWLOON GOLF CLUB'S DOLEFUL ANNUAL MEETING

Clubhouse Chatter

By "Veritas"

## Quiet, Constructive Thinking Is Required

### IF H. K. F. A. IS TO SOLVE PROBLEM

MEMBERS of the Hongkong Football Association have got to do some quiet, but very coherent and constructive thinking between now and the next Council meeting. The appeals of the Kowloon Chinese F.C. and Eastern F.C. against the Management Committee's rejection of their application for admission to the first division have been upheld. This, in effect, is practical confirmation of Col. Harrison's condemnation of the Management Committee's action in deciding to reduce the first division from 14 to 12 teams contrary to the apparent wishes of the Association's annual meeting. This can also be interpreted that, so far as the Appeals Board is concerned, it will countenance no restriction of the number of teams taking part in the first division, unless, presumably, a majority opinion of the H.K. F.A., has signified otherwise.

#### Circumstances Or

#### Principle?

ON a point of principle, the worthiness of such a decision is incontestable. What the Council may be asked to debate is whether a position does not exist which makes it imperative for a principle to become subordinate to circumstances. This may appear to be anachronistic, but it cannot be dismissed with a nonchalant shrug of the shoulders. Since I last wrote on this subject, it has been suggested that my so-called problem does not exist. At least it is not so acute as I have imagined. My critic, a very ardent follower of football in Hongkong, and a hard-worker in its interests, claims that it is not the majority of footballers who complain about the length of our season; that it is merely the voice of the minority; that the only players affected are those called upon to participate in the various Shield and charity cup competitions in addition to league engagements; and

that they are few in number compared to those who have nothing but a season of league matches. The point is well made, and can be appreciated. But it doesn't dispose of the fact that the football season is generally admitted to be too long, and that many of the civilian clubs are called upon to play mid-week matches in the face of great team-raising difficulties.

#### Servant Of The Game?

SURELY nobody is going to argue that a player should be the servant of a game in so far that he must make personal sacrifices in order to fulfil a fixture list? But that position has existed for several years now. As I wrote on April 27, and again last week, it is a simple proposition. To make the situation clear I will reiterate three reasonable alternatives: one is to reduce the number of teams taking part in the league; another is to cut out some of the extra competitions; a third to split your league divisions into sections, and play off a sectional final for the divisional championship at the end of the season. Either of the first or third are intensely practicable. The second, one imagines, would create too many difficulties. The Management Committee attempted the first, and apparently they are to be repudiated. But the problem remains, and either the Association is going to shut its eyes to it, or it must consider other alternatives.

#### Digging Own Grave

ONE does not complain about the action of the Appeals Board in rescinding the Management Committee's decision. The Board has this power (though I imagine the Management Committee feels a bit hurt) and nobody is going to question its verdict. The point which still provides, one with anxious thought is whether the H.K.F.A., either through its Council or Management Committee, is going any further in an attempt to put the football season on a smoother working basis. If it is not, then it becomes apparent that chaos is going to arise sometime next March and April. Inaction means that the Football Association is digging its own grave in which will be buried the remains of a worn-out constitution. Football is an important sport in Hongkong and is worthy of dignified and effective organisation. The Association is headed by a band of hard-working officials but their labours will be made easier and more amicable if they can evolve some system whereby the football season is completed within a reasonable time-limit.

KHO SIN-KIE

## KHO SIN-KIE BEATS G. P. HUGHES

### International Tournament

Lucerne, Aug. 28. Kho Sin-kie, China's leading tennis player to-day enjoyed his revenge for defeat at the hands of G. P. Hughes in the Wimbledon championship, when he beat the famous English Davis Cupper in the International tournament by two sets to one.

Kho and Hughes met in the semi-final, the Chinese winning a first-rate encounter by 4-6, 6-4, 6-4. When they met in the first round of the Wimbledon championship last June, Hughes won a stirring match by 6-11, 6-4, 3-6, 6-3, 8-6, and Kho was then regarded to have put up the finest performance of his career.—Reuter.

## \$1,000 GOLF TOURNEY

### WON BY CURTIS

Brighton, Aug. 28. D. Curtis of Queen's Park, Bournemouth, to-day won the News-Chronicle £1,000 golf tournament over the East Brighton course with an aggregate of 283, made up of 71, 70, 71, 71.

He beat one of the strongest fields ever to compete outside of the British open championship, including A. Padgham, Henry Cotton, Percy Alliss, G. A. Whitcombe, and W. J. Cox. Dick Burton finished second with a score of 284 and E. Lacey was third one stroke behind. Arthur Padgham and four others had aggregates of 287.—Reuter.

## UNHAPPY FUTURE IS CONTEMPLATED

### THE RIFLE RANGES PROBLEM

#### H.K.R.A. PAV: TO BE BUILT FORTHWITH

Two meetings with but a single thought were held in Hongkong yesterday in contrasting atmospheres. While the Kowloon Golf Club was gloomily regarding the future of their course in the light of the increased activities of the Hongkong Rifle Association, the latter were joyfully giving the OK to a project for erecting forthwith a pavilion on the rifle ranges through which the Kowloon golf course runs.

Quoth Mr. H. H. Mundy, Golf Club President in his annual speech:

I want you definitely to understand that we are, and always have been, allowed the use of the ranges for purposes of golf by courtesy of the Military Authorities and all we need, is a "Gentleman's Agreement." Our only hope is that the generous support I have just referred to will continue, and in this respect, our thanks are particularly due to Colonel Harrison, G.S.O.I., for his sympathy towards us in the past.

I therefore feel it my duty to bring to your notice the possibilities of further restrictions owing to increased military requirements. So that you can consider the matter with a view of giving your representatives some indication of the line of action you wish them to adopt.

Simultaneously the Rifle Association Council announced that an anonymous donor had offered a contribution of \$500 to the building fund in connection with the proposed clubhouse, providing the work was guaranteed a further sum of a similar amount by the new year. Other donations in addition were likely to be forthcoming in the near future. The members of the Kowloon Golf Club, in favour of a contract being entered into forthwith for the erection of this building, and a Building Sub-Committee was formed to make all necessary arrangements towards this end, the members appointed Mr. C. Grimley (Vice-President), Mr. T. G. Stokes (Hon. Treasurer) and Major D. H. Steers (Hon. Secretary).

#### NOT HOPEFUL

Clearing realising their position vis-à-vis the Hongkong Rifle Association and the military ranges at Kowloon City, members of the Kowloon Golf Club enquired whether any prospecting has been done regarding the possibility of another site for the golf club. The answer by the President was in the affirmative, although he emphasised that they had gone no further than searching for a site.

Mr. Mundy intimated his own personal unwillingness to shift from the present course in view of the amount of money which had been sunk into its preparation and the fact they had just paid off for a nice clubhouse which they would have to demolish if they shifted.

Mr. Mundy called for an optimistic attitude, but clearly several members could see no very encouraging outlook for the future.

## Latest Cricket Results

### TALL SCORING

London, Aug. 28. Yorkshire took first innings points from Sussex in a county cricket match which concluded to-day. Sussex scored 225 and 297 for 7 declared, to which Yorkshire replied with 328 and 71 for no wicket. Melville hit 90 for Sussex in their second innings in which Turner took 5 for 50. Hutton was Yorkshire's leading batsman, compiling 83.

Surrey won on first innings against Hampshire. Surrey scored 423 for 9 declared (Gregory 101, Watts 110 not out and Sandham 89) and 227 for 5 declared. Hampshire had scores of 310 (Moore 100) and 174 for one wicket (Paris 83 not out).

Notts took first innings points from Glamorgan when they scored 304 (Keeton 70, Harris 75) and 227 for 7 declared.

Glamorgan's scores were 274 and 112 for one wicket, Dan Davies scoring 77 not out.—Reuter.

### Wyatt To Go To Australia

## JAPANESE EQUAL SWIMMING RECORDS

### FINE DISPLAYS IN LONDON

#### SWEEP THE BOARD

London, Aug. 28.

The Japanese Olympic swimmers swept the board in an international swimming contest at the Wembley bath against the Empire Swimming Club to-night.

The Japanese, several of whom were attacking European records, threatened to withdraw if they were not allowed to practice, and in view of this the rule against practising before a programme starts was dropped to enable the Japanese to put in some practice.

The springboard diving was won by Shibahara with 457.3 points, with Hodges second (384.0) and Yoyangi third (345).

#### RECORDS EQUALLED

Kolke won the 200 metres breaststroke in 2 mins. 39.8.10 seconds, thus equalling the European record established by Jacques Cartonnell of France last year.

Hamauro was second and Ito third.

In the 100 metres backstroke, Kiyokawa finished first in 1 9 8/10 equalling the European record set by Kupper of Germany in 1929. Kojima was second and Yoshida third.

Terada won the 800 metres free style in 10 22.6.10 falling to beat the record swim of Tavis of 10 15 0/10 made at Cannes in 1932. Mishihara was placed second in this event and Honda third.

Koyanaga won the high diving with 123.3 points, which Tomalin was second with 101.1 and Shibahara third with 91.1.

England beat Japan in a water polo match by seven goals to two. Sutton (3) and Milton (2) scored for England in the first half and Milton and Mitchell added goals after the interval. Takahashi and Wada netted for Japan.—Reuter.

## A NEW CODE BOOK

### Bowls Laws Explained

Good news is in the air, in that it is semi-officially announced that a new code book, explaining what is really meant by the laws of the I.B.B. game, will shortly be issued. This book will be the outcome of many amendments to the existing laws, emanating from submissions made to the secretaries of the four home counties subscribing to the I.B.B.

When their work is finished, it will be issued in the shape of a code, or explanation, of the existing laws which will continue to meet with the grave disapproval of thousands of flat-green bowlers.

As the laws are to-day they are complicated, and to arrive at any decision as to what they mean one has to make three or four cross-references, many of which appear contradictory and in some cases lead to bewilderment.

Further, while there are many direct statements as to what must be done, there are no penalties decreed upon law-breakers who are persistent in their desire to get the better of an opponent.

Not so long ago a short code was issued by the I.B.B., but it was no more illuminating than the laws themselves. Several new rulings were recently issued by the I.B.B. but these have not been embodied in the laws, the last issue of which is dated July, 1928.

They have remained much in the state in which they were originally drafted by Mitchell in the middle of last century.

### ASTONISHING UPSET

Singapore, Aug. 21.

Mr. J. F. Devlin, famous professional and coach, who was formerly All-England Singles Champion for six successive years, gave Singapore badminton fans a surprise at the Victoria Memorial Hall last night when he lost a singles exhibition match to the local champion, Leow Kim Fatt, 15-7, 15-6.

It has to be taken into consideration, of course, that he was playing under entirely strange conditions and was unaccustomed to the heat, the speed of the shuttle and the general atmosphere.

Interviewed after the games, he had wholeheartedly praised Singapore players and considered that they displayed not only a high standard of badminton but played with purpose and intelligence.

He agreed that Singapore men and women stars compare very favourably with those in other parts of the world and conceded that Malayan players stood a chance in the All-England championships although they would have to combat against the very difficult conditions, the cold, the different atmosphere and the different flights of the shuttle.

Partnered by Mrs. L. M. Pennecfather, Singapore women's singles champion, he was defeated 11-15, 15-6, 15-11.

The only game he won was the men's doubles with Seah Eng Hee for partner. They beat Yap Chin Tee and Charlie Chua 15-3, 9-15, 15-10.

The following are detailed descriptions of the exhibition games:

#### DEVLIN VS. KIM FATT

Kim Fatt, opening the service, scored two points. His first lob was countered by a drop which Kim Fatt just put back over the net before Devlin could get to it.

He was aggressive, forcing Devlin to the net many times with slow net returns.

But Devlin began to warm up and bring into play his courtcraft as the game progressed.

Most of his shots went to the back court, however, and were not really attacking strokes.

With Kim Fatt leading he started to swing over some cross smashes. Kim Fatt returned a few and held the lead, gradually rising to 13-7.

Devlin appeared tired and lost the set 7-15.

Although from the match point of view he was unimpressive, his strokes, footwork and tactics were worth watching.

He has a graceful style, and plays with the easy, follow-through motion which he so firmly advocates.

He took most of the backhand jobs high and either dropped or drove them "back."

In lobbing, he made the shuttle go quite high, which gave him time for recovery.

As he had advised, he took the net shots close to the tape, and his wrist action was noticeable in the smash.

Kim Fatt kept his form in the second set and won it with the comfortable margin of 15-6.

#### MIXED DOUBLES

This was a spectacular match with long rallies.

Devlin was ably assisted by Mrs. Pennecfather whose returns often

## E. F. Fincher Puts Up Good Fight

### BEFORE LOSING TO HUNG

E. F. Fincher put up a surprisingly stout resistance to W. C. Hung in the second round of the Kowloon Cricket Club senior tennis championship yesterday, finally losing 8-6, 6-3, 7-5.

Fincher was leading 5-2 and 40-15 in the first set and four-love in the third, but on both occasions he cracked up when he appeared safe for the set.

In view of the fact that this was Fincher's first singles match for several months his performance was particularly good.

Hung was not continually at his best though he had some bright intervals during which he outplayed his opponent, Hung now meets A. E. P. Guest in the semi-final.

## KOWLOON GOLF CLUB RIFLE ASSOCIATION AND MILITARY RIGHTS OVER COURSE CLUB'S DIFFICULT POSITION

The unsatisfactory condition under which the Kowloon Golf Club now operates with both the military and the Hongkong Rifle Association shooting over the course, was expressed by the retiring President, Mr. H. H. Mundy, at the annual meeting of the Club held at the European Y.M.C.A. yesterday.

Some discussion took place among members as to the best policy to be adopted but the President's opinion that they would only give up their Club House and the amenities they had built, with reluctance, met with general approval from the meeting. A suggestion that a Sub-Committee be formed to take up the matter was not proceeded with and the meeting concluded at *status quo*.

Mr. Mundy said: Gentlemen—The Accounts having been in your hands for the prescribed period, I will, with your permission, take them as read.

In connection with the Playing Grounds Association, no less than \$123 was raised for the deserving cause.

The amenities of your Club were enhanced by the introduction of a system whereby members could purchase hot lunches during the week ends.

Your Club premises are in an excellent state of repair, the repairs undertaken last year to the Club House roof having proved a sound job. As your Committee undertook the external and internal painting and colour washing of the whole premises during the year under review, it can be rightly claimed that your Club House is now in better condition than at any time since its inception.

The amenities of your course were also enhanced by the erection of a covered-in shelter at the first Tee which has proved a boon in the hot weather and, I have no doubt, will be further appreciated in the winter months. A new seventh green was laid, and put into use, which had the effect of materially lengthening the hole and speeding up play; a very necessary improvement as previously this was a shot-hole and congestion naturally occurred on busy days. Thanks are due to Messrs. Dennis and Taylor for their work in this regard.

Our annual dance again proved a success from a social point of view. Financially we were fortunate to break even, as this function was one of the first social events to be held after a period of mourning for His late Majesty The King. Over 170 members and their friends were present, among whom we had the honour to receive the Captain and Secretary of the Royal Hongkong Golf Club accompanied by their respective wives, Mr. and Mrs. R. S. W. Paterson and Mr. E. Cock, who was, no doubt, of you are aware, our first President.

Our thanks are due to Messrs. Stoker and McKelvie for their valuable help in connection with this past event.

**ST. JOHN TROPHY**  
I would take this opportunity of congratulating your Captain on his selection of a team which took back the recently inaugurated Kowloon Valley "Ashes" by the splendid victory of 21½ points to 7½ points. These bi-annual matches between Happy Valley and Kowloon Golf Club were held on irregular dates, until Mr. A. O. Brown took over the management of the former club, after which they became regular fixtures and were thoroughly enjoyed by all. Since Mr. Brown's retirement, the reins have been gathered up on behalf of Happy Valley by Mr. K. S. Robertson, who was one of our own Club's first Captains, and I have no doubt that the spirit embodied by Mr. Brown will be carried on by Mr. Robertson.

The St. John of Jerusalem trophy continues to be a competition which promotes keen interest, and this year we were able to forward to this noble body the sum of £10. 1s.

The annual supper and prize distribution was held last week and was again an unqualified success. This event, as most of you are aware, was instituted last year in place of the gymkhana. I do not propose to discuss the merits or demerits of this change of procedure concerning our prize distribution, my only regret is that the abolition of the gymkhana has robbed our lady members of the only mixed social event held at the Club premises.

**LADIES' SECTION**  
Concerning the Ladies' Section, facilities were made for them to

entertain lady members from the Country Club and though our ladies were not very successful, I understand that a pleasant day was enjoyed by all. A further attempt was made by our feminine friends to stage a foursome competition, but I regret that this had to be abandoned owing to lack of support.

The year under review has not been one of the best in the Club's history for the ladies as, owing to further restriction on our playing time by increasing use of the shooting ranges, their keenness has been naturally diminished and the reflection is shown by no less than 28 resignations from lady members, during the current year.

I think it is only right that I should inform you that an application was received from our Treasurers at the beginning of this year for additional remuneration owing to increase of work that has since since commencing to act on our behalf. To this year Committee replied admitting the increase of duties but requesting that the matter be deferred until the end of the financial year, so that the effect of the advent of the newly formed Hongkong Rifle Association, in our year's working, could be noted. The wishes of the step is obvious from the diminished revenue recorded in the accounts before you.

Despite having only lost one complete week-end of golf and a full week prior to this particular week-end, in addition to that Sunday usually allotted to the Hongkong Volunteers, we have been able, with a little shuffling, to complete our fixtures in their entirety, but the continued loss of each and every Wednesday afternoon, commencing I think, in September last and ending in July last, has been practically, if not entirely, responsible for the revenue diminution and the consequent low balance of \$2.04 on the Income and Expenditure Account. I regret to say so, but it is my view that to continue operating our Club under these restricted lines with our constant overhead charges, will bring forth a repetition of similar bad results, as in the period under review, in the years to come.

**RIFLE RANGE HISTORY**  
Our tenure of the ground over which we play golf is a matter which has become the paramount topic of conversation and debate among members and I feel it is now of so vital importance to members, and residents in Kowloon in general, that it will bear some amplification, and in order to clear up points which have been raised on the position, I will give, as briefly as I can, a history of this area of land now known as the Kowloon Rifle Range, but which the majority of us prefer to designate as the Kowloon Golf Club.

In the year 1913 an agreement was entered into between the Colonial Government and the Military Authorities to put in proper order the tenure by the Military Authorities of the Kowloon rifle ranges—these ranges had been used by the Military entirely since the year 1906. The site agreed upon for the Ranges is the area at present so occupied and, as stated, a formal agreement was entered into that year between the Hongkong Government and the Military Authorities. I think I am right in saying that the agreement was binding on the Hongkong Government over a certain number of years to refrain from any interference with the military in the enjoyment of the rifle ranges. On the termination of that period of years in 1920 the holding was, as now, on a yearly basis. I think I am also correct in stating that if the military are required to remove from the ranges at the Government's request, the Military Authorities have to be compensated for the outlay they made on the Ranges and be provided with another suitable area

for use as a Range. The agreement also contained a clause stating that the range was to be used by regular troops, but that Volunteers would also be permitted to use the range. So far as I can ascertain, the area was laid out as a rifle range and used fully as such until shortly after the war period. Certain it is, however, that when this Club was permitted to play golf over the ranges in 1924, these ranges were in a derelict and desolate condition, malaria was rampant, and the military authorities were disposed to, and in fact did, make application for an area in the Shing Mun District, and I can only assume that no transfer of the ranges to subsequent improvements made on the land by this Club.

### GOVERNMENT SYMPATHY

However, to free the matter of this permission from all argument, it was understood from the beginning that golfing facilities were to be sub-servient to the rifle shooting of regular soldiers and Volunteers. In spite of a financial uphill fight, which the Hongkong Government kindly assisted with the donation of \$5,000. (Sir Edward Stubbs was Governor at this time), the Club progressed and filled a long-felt want to those who found it difficult and impossible to avail themselves of golfing facilities situated at an inconvenient distance from Kowloon to permit of afternoon or evening golf.

As the Club progressed so did it improve the ground over which its members were permitted to play. I think in all, including the expenditure on the Club House, the sum of over \$40,000 has been expended by this Club in the improvement of the area, and this has been of benefit not only to the Military Authorities, but to the Colonial Government.

In 1925, owing to representations made by the Club, the then G.O.C. Major General Lunn, restricted the Hongkong Rifle Association's civilian association, from using the range.

The loss of revenue, to which I referred in a previous part of my speech, I repeat, is in no small measure due to the curtailment of golfing facilities on Wednesday afternoons owing to the ranges being used for regular or other shootings. The use of the ranges by regular troops could not be taken exception to, but when the ranges were allotted to the Hongkong Rifle Association, also a civilian body, of which I understand a very low percentage of members is civilian, the matter was taken up by your Committee with both the Hongkong Government and the Military Authorities.

From both these Authorities, your representatives had sympathetic hearings, but, Gentlemen, I submit that sympathy of itself is insufficient, and must have something more tangible than an expression of compassion. Things have progressed no further than they were at the time when the Rifle Association commenced to upset the Wednesday afternoon golf.

### GENTLEMAN'S AGREEMENT

In the past we must admit to having received generous support from the various Officers in command of the Troop who have sympathized with us in our restricted facilities. In the present circumstances, matters are unsatisfactory and with the definite addition of two battalions of troops, as notified latterly in the Press, which implies that increased range accommodation will be required, the future appears anything but rosy. In this connection I would respectfully suggest that Government be approached with a view to the extension of the ranges to the north-east in such a manner that, when in use, these would not interfere with golfing and incidentally permit of firing at all times by Military or Civil Bodies.

I want you definitely to understand that we are, and always have been, allowed the use of the ranges for purposes of golf by courtesy of the Military Authorities and all we "possess", if such a word can be used, is a "Gentleman's Agreement". Our only hope is that the generous support I have just referred to will continue, and in this respect I thank you particularly for the sympathy towards us in the past.

I therefore feel it my duty to bring to your notice the possibilities of further restrictions (owing to increased military requirements) so that you can consider the matter with a view to giving your representatives some indication of the line of action you wish them to adopt.

I need hardly reiterate that the decline of a recreational club such as this, will react strongly in Kowloon where there is at present a dire lack of playing field area for the civilian population.

I would suggest that you consider the formation of a small sub-committee, either to be decided on by

tremendously. The rallies were long and the pace hot. Devlin smashed often and only varied occasionally by dropping over the net.

Charlie Chua and Chin Tee were not doing badly either. They returned plenty of smashes and tried outpacing their opponents though without success for a time, and although on the defensive they continued steadily and won the second set 15-9.

The final set was a keen one and although Devlin looked tired he kept smashing and with Eng Hie supporting nobly, they won the game 15-10.

### WOMEN'S DOUBLES

Mrs. L. M. Pennefather partnered by Miss Choo Siew Cheng beat Misses Lillian and Grace Tan 21-15 in a one-set game.

Contrary to Mr. Devlin's recommendation for men's and women's doubles, both sides played front and back instead of side by side but otherwise gave a good exhibition. Mrs. Pennefather upheld her reputation by displaying splendid form and taking the game out of the hands of her opponents after being behind 7-14. In a quick service she increased to 17-14 and from then on took the combination to win 21-15. Miss Choo made a useful partner at the net.

## SHANGHAI SWIMMING MARK TIED Britton's 100 In 57.1

T. Britton added to his laurels at the Foreign Y.M.C.A. annual swimming gala this week when he won the 100 yards free style and equalled the record of 57.1/5 seconds established by Noel Hammond last year.

Miss Wendy Donnelly retained her 50 yards free style championship, winning from Miss Stephanie Brabner with Miss Audrey Hammond third in the time of 32.2/5 seconds, and J. C. Lane won the 100 yards men's breast stroke championship in 80.4/5 seconds. B. M. Lambkin being second and J. Dudley third. Arriving in Shanghai late so that his entry for the diving was not received till but a day before the championships, C. R. Sharp regained the diving championship which he won in 1934. G. J. Grik being a very close second, and was unlucky not to have done better. The women's diving was won by Miss Audrey King from Miss May Thompson, the former putting up a very fine performance.

### BRITTON'S GREAT RACE

Britton got away to a fine start in the men's 100 yards free style championship race, and led the remainder for the first lap. He set up a very fast pace and remained ahead for the first two lengths, but a bad turn into the third lap enabled Logan to come up and Gavriloff likewise drew level. Midway up the third lap, Logan, Britton and Gavriloff were swimming level, with Oliveira only slightly behind. Three-quarters of the way up the pool Britton spurred and gained a lead and turned into the final length with a slight advantage which he increased throughout the last lap to go on and win by five feet from Logan. The latter had a very bad start but came up well to contest second place with Gavriloff. In the final lap, Logan brought out a burst of speed that took him ahead of Gavriloff to win by a touch. The time of 57.1/5 seconds is equal to Hammond's record established last year.

After a false start, Miss Wendy Donnelly went out ahead in the first length of the ladies' 50 yards free style championship, holding an advantage at the turn. Miss Audrey Hammond and Miss Stephanie Brabner held second place, both level and Miss Agnes Dudley was third, slightly behind. In the final lap, Miss Donnelly went out to win by five feet with second place being very closely contested and Miss Stephanie Brabner just touched before Miss Audrey Hammond. The time of 32.2/5 seconds does not compare favourably with Miss Jacqueline Ball's record of 29.3/5 seconds, but is better than the time of 32.4/5 seconds established by Miss Donnelly when she won the championship last year.

## ANNUAL REPORT ON VOLUNTEERS

# Many Members Commended For Work In Corps

## CHICAGO DISPLACES ST. LOUIS

### GIANTS CONTINUE TO FORGE AHEAD

New York, Aug. 28.  
New York Giants continued to  
widen the gap between themselves  
and the field of the National League,  
beating Pittsburgh seven to two to-  
day, with thirteen hits against eight,  
and St. Louis Cardinals, who led the  
League for so long, have struck the  
worst going of the season and con-  
tinue to founder. They were held  
scoreless by Philadelphia, who hit  
seventeen times and scored eight,  
aided by Klein's home run.  
Chicago succeeded in beating  
Boston and stepped into the second  
League position, winning by eighteen  
runs to three, with twenty-one hits  
to ten.  
Brooklyn and Cincinnati split a  
double-header.  
In the American League, New  
York crushed Detroit twice. In the  
first game they hit seventeen times  
and scored nineteen runs, with  
"Dimaggio hitting a home run. Detroit's  
eight hits yielded four rallies. The  
nightcap they took fourteen to five,  
though they were out-hit, fourteen to  
sixteen.  
Washington was beaten by Chicago,  
five to six, and St. Louis, with Solter  
homer, won the first game from  
Boston eight to one, and lost the  
second, one to two.—Reuter.

## LAST CHANCE ON MONDAY FOR PHOTO CONTEST ENTRIES

Intending entrants in the  
"Telegraph" Competition are  
reminded that all entries must  
be in not later than 5 p.m. on  
Monday, August 31.  
This is the sixth annual  
Competition arranged by the  
"Telegraph" and there are  
already indications of an un-  
usually high standard of merit  
in the entries received.  
Three silver cups, a Filmo  
Straight-8 movie camera and  
\$250 in cash prizes are being  
offered. A lucky snapshot  
may win you a handsome prize.

ment for the loyalists.—United Press.

## "VOICE OF HUMANITY"

London, Aug. 28.  
There is widespread support in the  
Press for the efforts with which the  
British Government has associated  
itself for securing alleviation from  
both sides of the suffering inflicted  
by the civil war in Spain.  
A telegram published yesterday  
from the Foreign Secretary to Sir  
Henry Chilton declared the urgent  
desire of the Government to play  
its full part in any organised inter-  
national effort which might result  
from the suggested approach to the  
Spanish Government and the leaders  
of the rebel forces by the Diplomatic  
Corps.

"It is this approach succeeds," the  
Daily Telegraph wrote this morning,  
"it will do more good to Spain than  
any championship of either of the  
causes at death grips. Of all the  
horrors of civil war, the worst is its

Docherty, Drummer W. R. Forsyth,  
Pte. V. H. C. Jarrett.  
"The standard of efficiency  
throughout the Corps has been  
improved." "It has been a very busy  
year for the Corps, consequently  
the average attendance again ex-  
ceeded previous years.

## COMMENDATIONS

"I desire particularly to commend  
those members of the Corps who  
comprised the Corps' Syndicate for  
the Kirkpatrick Cup and with their  
able Essay were bracketed first in  
the competition. It was comprised

as Head Storeman for 23 years  
with commendable efficiency".

## URGES NEW HEADQUARTERS

The Commandant reiterates, in  
his Annual Report, the necessity  
for new Volunteer Headquarters.  
"They are a real need, as with  
increased numbers and equipment  
our present accommodation is quite  
inadequate," he writes.  
"A suggestion is also V. H. long  
experience in the Regular Army  
has proved invaluable on many  
occasions.  
Including those on leave, the full  
strength of the Hongkong Volunteer  
Defence Corps at the time of writ-  
ing the Report was 60 Officers and

## NEW KOWLOON SKYSCRAPER

### MR. KEW NO LONGER ACTING FOR OWNERS

Mr. Fred Kew writes that he is  
not now acting on behalf of the  
owner of the property upon which,  
as related in the "Telegraph" yester-  
day, it is proposed to erect a fifteen-  
storey block of flats in Kowloon.  
Mr. Kew adds:  
"It is true that I purchased this  
site, and I would like to explain that  
some time ago the owner requested  
me to invite a few architects to sub-  
mit without cost a sketch for the  
erection of sixteen-storey apartment  
mansions in Kowloon. There was  
however, a tentative promise that if  
any sketch is accepted and adopted,  
the work will be entrusted to such  
architect."

## MADRID GIVEN ULTIMATUM

(Continued from Page 1.)

Navalmar, have arrested and im-  
prisoned an American, John Dored,  
a Paramount News cameraman.  
It is reported that Dored, accom-  
panied by a trio of loyalist guards,  
mistakenly entered rebel territory.  
The insurgents seized and executed  
the guards and, discovering loyalist  
passes in Dored's pockets, put him in  
jail.  
It is recalled that the American  
Embassy at Moscow saved Dored's  
life in 1923, when the cameraman, a  
former White Russian attached to  
the Czar's personal staff, re-entered  
the country to take pictures of  
Lenin's funeral. He was arrested  
and sentenced to death, but the  
Embassy intervened and secured his  
release under the promise that he  
would never return.—United Press.

## Expect No Attack

Following the dropping of leaflets  
warning Madrid to expect to be at-  
tacked unless it surrendered, there  
is considerable doubt that the rebels  
will bomb the city due to the effect  
such an act would have on inter-  
national opinion.  
The Government, however, has an-  
nounced the completion of air defence  
plans, including preparation of a  
fleet of fast pursuit planes, a system  
of sirens to give warning, and other  
precautions.  
Meanwhile, 28 rebel officers are on  
trial for their lives at the city gaol.

## INTERNING TROTSKY

### NEW DOMICILE TO BE FOUND

Oslo, Aug. 28.  
The Norwegian Minister of Justice  
has decided "to intern" M.  
Leon Trotsky, the exiled Bolshevik  
leader, and his wife. It is stated  
they will be confined to their present  
home until a new domicile can be  
found for them.  
Two of M. Trotsky's secretaries  
will be expelled from Norway  
immediately.  
The reason for M. Trotsky's en-  
forced removal from Norway is said  
to be his refusal to accept the condi-  
tions of residence imposed by the  
Norwegian Government.—Reuter  
Bulletin Service.

## LOCAL DIVORCE

Sitting in divorce jurisdiction at  
the Supreme Court this morning,  
Chief Justice, Sir Atholl MacGregor,  
heard a petition by Mary Helen  
Middleton Smith for the dissolution  
of her marriage with James Clarence  
Middleton Smith, on the grounds of  
adultery. Evidence of domicile was  
given by Mr. A. C. I. Bowker, while  
an affidavit by Louise Dent was put  
in evidence. His Lordship granted a  
decree nisi.
